

Shape your financial future.

Where should you begin?

meet your retirement challenge

- 1.** Complete and return the simple tear-off form in the back of this booklet
- 2.** **Decide how much to contribute.** The Retirement Income Calculator can help you determine an appropriate amount. Register your account online to use the calculator after you enroll.
- 3.** **Choose your investments.** See “Investing Is Easy” at right for more. Refer to the enclosed booklet to review all of your investment options.

don't forget...

Register your account at www.retirement.prudential.com after you complete enrollment. It's important to keep an eye on your account to help ensure that your financial future is on track. You can quickly track and manage your account, update your email address and more!

can't wait?

Complete and return the enclosed tear-off form.

a great opportunity for a more secure financial future

Southeast Texas Classic Automotive, Inc. 401(k) Profit Sharing Plan

Plan Features

Your employer may be one of the best ways to save more for your future. You will be able to enroll upon completion of 60 day(s) of service. You may enroll on the first of the month, after meeting your eligibility requirement. Among the benefits:

- Automatic saving through payroll deduction. You may contribute up to \$20,500 in 2022 (\$27,000 if you are at least age 50 or will be this year). You may contribute 1% to 25% of your annual pay before taxes are deducted.²
- The ability to make Roth after-tax contributions to your account. To find out if Roth contributions are appropriate for you, visit roth.connectwithpru.com.
- An easy way to automatically save more over time through Contribution Accelerator. Your contribution amount will increase by 1% annually, up to a maximum of 15% of your pay. You can opt out of this feature at any time.
- A wide array of investments, including options for easily selecting your investment mix.
- Online tools and resources from our plan provider, Prudential, to help you manage your account.
- You may roll over money to your account, in any amount, from another similar retirement plan. Refer to the plan's SPD for further information.
- You may be able to access your retirement savings before retirement through a loan or in-service withdrawal or hardship withdrawal, but such withdrawals may be limited and should be used as a last resort. For more details, please review the enclosed booklet.

- The employer may make contributions to your account; this amount may vary from year to year.
- And much more! For additional information on other plan provisions, please review the enclosed booklet.

investing is easy with GoalMaker

GoalMaker® is an optional tool that helps you choose investments based on your expected years to retirement and your investor style. It guides you to a model portfolio of available investments, then rebalances your account quarterly to ensure your portfolio stays on target. In applying particular asset allocation models to your individual situation, you should consider your other assets, income, and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, savings accounts, and interests in other qualified and nonqualified plans) in addition to your interests in the plan.

...Or create your own portfolio.

You have access to a wide range of investments that gives you the flexibility to build a portfolio that reflects your needs and helps you work toward your goals. Remember, asset allocation and diversification do not assure a profit or protect against loss in a declining market. Please see the reverse for more information.

Guarantee your retirement income...

For a fee, you can elect an income protection feature that will safeguard some or all of your savings to help you create an income stream you can count on throughout retirement. Please refer to the enclosed booklet for complete information about this guarantee.

INVESTOR STYLE

Aggressive investors generally seek to maximize investment returns and can tolerate substantial market fluctuations

Moderate investors are generally willing to sacrifice safety of principal for potentially greater returns and can tolerate modest market fluctuations

Conservative investors are generally concerned about short-term ups and downs in the market and want to minimize risk and maintain principal

Know where you stand.

You can be on your way to a stable, secure, successful financial life. To see what it will take to get you there, let's first take a look at where you stand.

Take a Financial Wellness Assessment at www.prudential.com/getstarted.

²Contributions are subject to certain limits set by federal tax law and, as a result, may be limited accordingly.

Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus, and, if available, the summary prospectus, contains complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus, and, if available, a summary prospectus that contains this and other information about our mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. You can lose money by investing in securities.

Shares of the registered mutual funds are offered by Prudential Investment Management Services LLC (PIMS), a Prudential Financial company.

This material is intended to provide information only. This material is not intended as advice or recommendation about investing or managing your retirement savings. By sharing this information, Prudential Retirement® is not acting as your fiduciary as defined by the Department of Labor or otherwise. If you need investment advice, please consult with a qualified professional.

GoalMaker's model allocations are based on generally accepted financial theories that take into account the historic returns of different asset classes. But, of course, past performance of any investment does not guarantee future results. Participants should consider their other assets, income and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to their interest in the plan, to the extent those items are not taken into account in the model. Participants should also periodically reassess their GoalMaker investments to make sure their model portfolio continues to correspond to their changing attitudes and retirement time horizon.

This material not intended to serve as advice or recommendation about investing or managing your retirement savings. Prudential Retirement is not acting as your fiduciary as defined by the Department of Labor's Fiduciary rule or otherwise.

Participants using the Retirement Income Calculator should consider other assets, income and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, etc.) when assessing the adequacy of the estimated income stream as provided by this tool. The Retirement Income Calculator is hypothetical, for illustration only and not intended to represent performance of any specific investment, which may fluctuate. There is no assurance that retirement income objectives will be met. **You can lose money by investing in securities.**

Withdrawals are taxed at ordinary income tax rates. Withdrawals from a Roth account are income tax-free after the Roth account has been open for five tax years and if you are over age 59½, disabled or have died. Withdrawals of contributions from a Roth account are income tax-free.

It is possible to lose money by investing in securities. Neither Prudential Financial nor any of its affiliates provide tax or legal advice for which you should consult your qualified professional.

Retirement products and services are provided by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT, or its affiliates. PRIAC is a Prudential Financial company.

PLAN HIGHLIGHTS

On the following pages, you will find important information about the Southeast Texas Classic Automotive, Inc. 401(k) Profit Sharing Plan. The information in the guide is just an overview of the plan's features. For more detailed information about your plan, you can request your plan's Summary Plan Description (SPD) from your Plan Administrator.

Excessive trading can harm a fund's performance and the retirement security of long-term investors. Mutual fund companies and other providers of retirement investment products have rules prohibiting this practice in order to protect the interests of all investors. The Excessive Trading Monitoring Program is part of Prudential's ongoing commitment to help all our investors grow and protect their wealth. The program is designed to identify participants who are engaging in excessive trading of one plan investment for another plan investment and to stop such trading. Visit www.retirement.prudential.com for more information.

This plan follows guidelines set forth by 404(c). In dealing with participant investment self-direction, 404(c) has garnered much interest as a means for plan sponsors to avoid or reduce fiduciary liability for participant investment choices in a participant-directed investment plan. This plan chooses to comply with specific requirements regarding information about investment options, number and type of investment options, as well as an ability to move balances between those options on a reasonably frequent basis.

ENROLLMENT AND ELIGIBILITY

- You will be able to enroll upon completion of 60 day(s) of service. You may enroll on the first of the month, after meeting your eligibility requirement.

YOUR CONTRIBUTIONS

You may contribute:

- 1% to 25% of your annual pay before taxes are deducted.*
- You may make Roth contributions to your retirement plan account.*
- If you will be at least 50 years old in 2022, you are also eligible to make an additional before-tax catch-up contribution of \$6,500 per year.
- You may change your contribution amount any time.
- You may roll over money to your account, in any amount, from another similar retirement plan. Refer to the Plan Document for further information.

* In 2022, federal tax law allows you to make a combined contribution of before-tax and Roth contributions to your retirement plan up to \$20,500.

CONTRIBUTION ACCELERATOR - an easy way to raise your contribution amount over time - through your plan's optional contribution accelerator feature. Here's how it works:

- You are automatically enrolled in this feature unless you opt out.
- Your contribution amount will increase by 1% annually, up to a maximum of 15% of your pay.
- You can opt out of this feature at any time.

ROTH CONTRIBUTIONS

Your retirement plan allows you to make Roth contributions to your account. Roth contributions combine the savings and investment features of a traditional before-tax retirement program with the tax-free distribution features of the Roth IRA. If you meet certain requirements down the road, the Roth money you withdraw at retirement - and any investment earnings - won't be taxable. When deciding if you should make Roth contributions, consider the following scenarios:

- If your tax rate will be higher in retirement than it is today, making designated Roth contributions may make sense for you.
- If your tax rate will be lower in retirement than your working years, you may benefit more from making before-tax contributions and deferring your tax obligation until retirement.
- With tax rates in retirement being uncertain, you may choose to diversify your taxation by making both before-tax and Roth contributions to your retirement plan.

To help you determine if Roth contributions are appropriate for you, visit roth.connectwithpru.com and enter your personal data into our Roth contribution calculator.

YOUR EMPLOYER'S CONTRIBUTIONS

The employer may make contributions to your account; this amount may vary from year to year.

In 2022, federal tax law allows employee and employer contributions up to a combined total of \$61,000 or 100% of compensation, whichever is less.

You can direct employer contributions to any investment in your plan.

WHAT IS VESTING?

"Vesting" refers to your ownership of the money in your account. You are always 100% vested in your own contributions, but it may take longer to become vested in your employer's contributions. Refer to the vesting schedule for details about your employer contributions.

PLAN HIGHLIGHTS

The vesting schedule below applies to the following source:

- COMPANY MATCH

You will be vested in your employer contributions based on the following vesting schedule:

Years of service	Percentage vested
After 2 years	20%
After 3 years	40%
After 4 years	60%
After 5 years	80%
After 6 years	100%

ACCESSING YOUR MONEY

You may be able to access money in your retirement plan account through a loan, in-service withdrawal, or a hardship withdrawal.

LOANS

Your plan allows you to take:	1 loan at one time
Application fee:	\$95 for each loan
Processing fee:	\$12.50 quarterly
Method of repayment:	Payroll Deduction
Tax consequences:	If loan is not paid in full, tax consequences will apply.
Prepayment available:	Yes

GENERAL PURPOSE

Interest rate:	Prime + 2%*
Minimum loan:	\$1,000
Maximum loan:	50% of your vested account balance, up to \$50,000 in a 12 month period*
Repayment period:	0 to 5 years

*Interest is paid back to participant's account. Additional information about loan calculations and loan interest rate details can be found in your plan's loan policy.

PRIMARY RESIDENCE

Interest rate:	Prime + 2%*
Minimum loan:	\$1,000
Maximum loan:	50% of your vested account balance, up to \$50,000 in a 12 month period*
Repayment period:	5 to 10 years

*Interest is paid back to participant's account. Additional information about loan calculations and loan interest rate details can be found in your plan's loan policy.

Any outstanding loan balance not paid back at termination becomes taxable in the year of default. Under the Tax Cuts and Jobs Act, for defaults related to termination of employment after 2017, the individual has until the due date of that year's return (including extensions) to roll over this amount to an IRA or qualified employer plan.

In-service withdrawals*

While employed, you may make in-service withdrawals within plan restrictions. A minimum withdrawal amount applies of \$1.00 annually.

Hardship withdrawals*

While employed, you may take a withdrawal request due to a financial hardship, within plan restrictions.

One of the following requirements must apply to qualify for hardship withdrawal:

- Purchase or construction of a principal residence
- Payment for higher education expenses
- Major medical expenses
- Preventing eviction from, or foreclosure on, a principal residence
- Payment of funeral or burial expenses for your spouse or dependents
- Repair of damage to participant's primary residence that qualifies for casualty deduction
- Expenses and losses as a result of a federally declared disaster
- Additional requirements to qualify for a hardship withdrawal can be located in the plan's SPD.

***Withdrawals:** The taxable portion of a withdrawal is taxed as ordinary income and will be subject to an additional early distribution penalty tax if you receive the withdrawal before age 59½. The total amount of the withdrawal may not be more than the amount required to meet your immediate financial need, however, you may have the option to "gross-up" the amount you receive to cover taxes. You may want to consult a tax professional before taking a withdrawal from the plan.

PLAN HIGHLIGHTS

Important note!

Amounts withdrawn, except for qualified withdrawals from Roth sources, are generally taxed at ordinary income tax rates. Amounts withdrawn before age 59½ may be subject to a 10% federal income tax penalty, applicable taxes and plan restrictions.

Neither Prudential Financial nor any of its affiliates provide tax or legal advice for which you should consult your qualified professional.

In order for distributions to be made from a Roth source free of penalties and federal income taxes, your Roth account must have been established at least five tax years before the withdrawal and your distribution must be: a) made on or after the date you attain age 59½; b) made to your beneficiary or your estate after your death; or c) attributable to your being disabled; or d) taken because you are a qualified first-time home buyer (lifetime limit of \$10,000).

RETIRING OR LEAVING THE EMPLOYER

It's important to learn about all options regarding your account balance before you retire or separate from service. You will need to make a decision about what to do with your vested account balance when one of the following events occurs:

- Your employment with Southeast Texas Classic Auto ends.
- You retire from Southeast Texas Classic Auto at the normal retirement age of 65.
- You retire from Southeast Texas Classic Auto at the early retirement age of 62.
- You become permanently disabled.
- Your death. Your beneficiary is entitled to your account balance when you die; they are responsible for all federal income tax imposed. Distribution upon death may also be subject to federal and state inheritance and estate taxes.
- If you separate from service before the year you reach age 55, you may be subject to an additional early withdrawal penalty tax if you receive a taxable distribution prior to age 59 ½.

When any of the events listed above occur, you or your beneficiary will have several distribution options. It's important to understand each of the distribution options listed in your plan's Summary Plan Description, before you make your decision. For assistance, please contact a Prudential representative at **1-877-778-2100**.

Keeping it in the plan

At the time benefits are payable, the amount of your vested account balance will determine how your account is handled. Refer to the schedule below :

Your vested account balance	Impact to your money
Less than \$1,000	Paid in lump sum, regardless of prior elections*
Greater than \$1,000	Your money will continue to grow tax-deferred in your account.

*Standard 20% withheld.

Directly rolling it over

You can choose to move or "roll" money over into another qualified retirement plan, a Traditional Individual Retirement Account (IRA), or Roth IRA. This allows your money to continue growing tax-deferred. This is based on our understanding of the tax law. You may wish to discuss this matter with your tax advisor. Because each situation is unique, neither we nor our representatives can provide tax or legal advice.

Having account balance paid in installments

You can withdraw your account balance in a series of payments, in an amount over a period of time determined by the employer.

Lump sum

You may choose to take a full or partial lump sum distribution. A 20% federal income tax may be applied.

INVESTMENT TYPES

This section is designed to provide general information about different types of investments. Not all plans offer investments in every category. Information about the specific investments offered through your plan is available in the Investment Options section of this guide. The main types of investments in which participants generally invest:

Stable-Value Investments: These investments combine safety of principal, liquidity and a competitive rate of return with potentially improved earnings power versus alternative short-term investments.

Fixed-Income Investments: Invest in corporate and government bonds. They can go up or down in value each day, so they carry more risk than stable-value investments, but also offer more opportunity for a potentially larger return. Fixed income investment mutual funds are subject to interest rate risk; their value will decline as interest rates rise.

Stocks/Equities: Stock funds also called equity investments represent ownership in funds, which own shares of corporations. Stock funds offer you a chance to share in the profits or losses of those corporations. Stock funds have the potential for higher returns, but they carry more risk than the other investment options.

PLAN HIGHLIGHTS

Allocation: Allocation investments combine fixed-income and stock components to offer you a combination of the interest income from fixed-income investments and the growth potential of stock investments. As a result, allocation investments typically do not experience the full ups and downs of the stock market.

Retirement Income: Although they may vary in structure, these options are designed to provide a steady stream of income for life.

INVESTMENT OPTIONS

Southeast Texas Classic Automotive, Inc. 401(k) Profit Sharing Plan offers a selection of investments to choose from. You can decide how you want your money invested, and may move money between investments anytime. Please refer to the disclosures at the end of this section for a description of any restrictions that may apply.

*These investments are included in your plan's GoalMaker portfolios. These investments are subject to change. You will be notified in writing in advance of any such change.

[ⓧ]Generally, distributions resulting from your termination of employment, retirement, death or disability, hardship withdrawals and minimum required distributions will always be paid in full without any fees or restrictions and will not be deferred. Prudential reserves the right to defer certain other withdrawals from GIF assets if your plan's pool level cashflow exceeds 10% of the pool's beginning of calendar year balance. A pool consists of similar contracts that are funded with us in the same calendar year. This availability of withdrawals and distributions is subject to the specific provision of your retirement plan.

Under most circumstances, transfers to competing funds will not be restricted. However, Prudential reserves the right to restrict transfers to competing funds from this and any other plan investment. Competing funds are generally money market investments, stable value investments, or funds with an allocation of 50% or more to fixed income securities.

If the SEC has suspended or otherwise restricted trading, or another emergency outside of our control exists, Prudential may defer transfers, distributions or disbursements for up to six months.

GOALMAKER

Your retirement plan offers GoalMaker®, an optional easy-to-use asset allocation program that will invest your contributions in a portfolio that matches your investor style and years to retirement with a desire to protect your income in retirement.

By enrolling in GoalMaker, you direct Prudential to immediately reinvest your future contributions and existing account balance (if applicable) to match this investment allocation. Your entire account will be rebalanced according to this portfolio unless a restriction is in place or a portion of your account is invested in a restricted source that isn't available through GoalMaker. Of course, as your goals and years to retirement change, you can select a new portfolio at any time without charges or penalties. Making an allocation change, however, will cause you to no longer be enrolled in the GoalMaker program.

The GoalMaker portfolio you choose will be automatically rebalanced at a frequency determined by your plan. Automatic rebalancing with GoalMaker ensures your asset allocation stays in line with your original investment objectives. During the rebalancing process, money is moved among investments in your GoalMaker portfolio to maintain the allocation percentages you choose.

PLAN HIGHLIGHTS

Additionally, GoalMaker's optional age adjustment feature automatically adjusts your allocations over time, based on the number of years you have left until retirement. How does it work? If you choose a conservative investor portfolio with 11-15 years to retirement, once you reach an age that brings you ten years before your expected retirement age, your account will automatically be updated to the conservative investor portfolio with 6-10 years to retirement.

In the critical years leading up to your retirement, a market decline could have a significant impact on your retirement strategy. To help protect you from this risk, if you elect to protect your retirement income, GoalMaker will automatically include an allocation to Prudential IncomeFlexTarget® once you attain age 55 or older.

IncomeFlex Target provides a degree of certainty for that portion of your portfolio by guaranteeing that your income in retirement will not decrease due to market declines you may experience while you are saving. An additional guarantee fee of 1.00% is also assessed for this increased protection. The fee only pertains to the dollars invested in IncomeFlex Target and is assessed in the same way as standard Investment Management fees. See the Prudential IncomeFlexTarget® Important Considerations for more details.

To see how your money would be invested across various asset classes, find your Investor Style code in the chart below that matches your investing style.

Plan Highlights

Guarantees are based on the claims-paying ability of the insurance company and are subject to certain limitations, terms and conditions. To maintain the IncomeFlex benefit, you must invest in one or more Prudential IncomeFlex Funds. Like all variable investments, these funds may lose value. Guaranteed growth of the income base, if applicable, ends at age 70 or when guaranteed withdrawals begin, whichever is earlier. Withdrawals in excess of the guaranteed lifetime income amount will reduce future guaranteed withdrawals proportionately.

Prudential IncomeFlex funds are investment options available under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC does not provide any guarantee of the investment performance or return of contributions to those separate accounts. PRIAC's guarantee of certain withdrawals is supported by PRIAC's general account and is contingent on its claims paying ability. Guarantees are subject to certain limitations, terms, and conditions. You should consider the objectives, risks, charges, and expenses of the funds and guarantee features before purchasing this product. You should carefully review the Prudential IncomeFlex Important Considerations before purchasing this product. Product availability and terms may vary by jurisdiction. Subject to regulatory approvals. Contract form number GA-2020-IFGW2-0805 or state variations thereof.

Keep in mind that application of asset allocation and diversification concepts does not ensure safety of principal and interest. **It is possible to lose money by investing in securities.**

These model portfolios are provided as samples and not as investment recommendations. The model portfolios are based on generally accepted investment practices and take into account the principles of modern portfolio theory, in which allocations are adjusted in an effort to achieve maximum returns for a given level of risk. You should consider other assets, income, and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to your interest in the plan, to the extent those items are not taken into account in the model before applying these models to your individual situation. Please note that in addition to the specific investments used in the GoalMaker model portfolios, other designated investment alternatives have similar risks and return characteristics. Information regarding those designated investment alternatives can be found in your plan enrollment materials or by logging into your retirement account at Prudential.com. The GoalMaker portfolios are subject to change including, for example, the replacement of investment options and allocations within the portfolios. You will be notified in writing in advance of such changes. Past performance of investments or asset classes does not guarantee future results.

GoalMaker's model allocations are based on generally accepted financial theories that take into account the historic returns of different asset classes. But, of course, past performance of any investment does not guarantee future results. Participants should consider their other assets, income and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to their interest in the plan, to the extent those items are not taken into account in the model. Participants should also periodically reassess their GoalMaker investments to make sure their model portfolio continues to correspond to their changing attitudes and retirement time horizon.

Keep in mind that application of asset allocation and diversification concepts does not ensure safety of principal and interest. **It is possible to lose money by investing in securities.**

These model portfolios are provided as samples and not as investment recommendations. The model portfolios are based on generally accepted investment practices and take into account the principles of modern portfolio theory, in which allocations are adjusted in an effort to achieve maximum returns for a given level of risk. You should consider other assets, income, and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to your interest in the plan, to the extent those items are not taken into account in the model before applying these models to your individual situation. Please note that in addition to the specific investments used in the GoalMaker model portfolios, other designated investment alternatives have similar risks and return characteristics. Information regarding those designated investment alternatives can be found in your plan enrollment materials or by logging into your retirement account at Prudential.com. The GoalMaker portfolios are subject to change including, for example, the replacement of investment options and allocations within the portfolios. You will be notified in writing in advance of such changes. Past performance of investments or asset classes does not guarantee future results.

GoalMaker's model allocations are based on generally accepted financial theories that take into account the historic returns of different asset classes. But, of course, past performance of any investment does not guarantee future results. Participants should consider their other assets, income and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to their interest in the plan, to the extent those items are not taken into account in the model. Participants should also periodically reassess their GoalMaker investments to make sure their model portfolio continues to correspond to their changing attitudes and retirement time horizon.

Investment Performance and Disclosures

Performance as of 12/31/2021

Please Note: Investment Categories are organized from least aggressive to most aggressive. This is the performance of all available investment options in your plan.

The performance quoted represents past performance. The investment return and principal value will fluctuate so that an investor's shares or units, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month end, please call 1-877-778-2100 or visit our website at www.prudential.com/online/retirement. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

The performance in this report is based in part, on adjusted historical returns of the oldest share class of the fund, which has been adjusted to reflect the fees and expenses of this share class. These returns are net of investment-related fees and charges as well as current contract fees (including asset charges). Your actual rate of return may differ from these returns depending on your specific account activity (including the timing of your contributions and purchases and other account transactions), and any changes in contract charges. Investments in the market-valued funds involve the risk and reward associated with the securities market.

Investment performance reflects true period earnings. The Inception Date represents the date assets were first invested in the fund or the date a specific share class was initiated. "N/A" indicated the fund was not in existence or data was not available/applicable at the time this statement was printed. Performance is based on 10 years when an Inception Date is not displayed.

*** Expense Ratios –**

The net and gross expenses shown include the total operating expenses of the funds and the indirect expenses of the funds' underlying portfolios. Your investment returns are reduced by various fees and expenses. For each investment option, expense ratios are presented as an annual percentage. Depending on the type of investment, these charges are paid to Prudential or to unaffiliated mutual fund complexes or bank collective trusts. **Gross Expense Ratio** - The Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The Gross Expense Ratio does not reflect a fund's brokerage costs, fee waivers, or investor sales charges. **Net Expense Ratio** - The Net Expense Ratio represents fees charged against fund assets after adjustment for any fee waivers, if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place.

**An expense waiver is the elimination of all or part of a fund's expenses and fees. The waiver may be contractual or voluntary in nature, and the expiration date indicates when the waiver is set to expire. In certain circumstances, fund companies may not set an explicit expiration date, but have the discretion to subsequently set an expiration date or withdraw the waiver at any time. As a result, expiration dates can change and may range from short-term to long-term commitments. Please reference the fund prospectus for further information on expense waivers before making an investment decision.

Some mutual funds and bank collective trusts, or their affiliates, compensate Prudential for selling their shares and servicing your retirement plan, as detailed in the Fact Sheet for that investment option. For other investment options, the charges reflected in the Expense Ratio are typically deducted by Prudential in return for investment and recordkeeping services, and product distribution. For some plans, the charges also enable Prudential to satisfy the plan's request for allowances to defray plan expenses. Your retirement plan may not include investment options with lower fee structures or lower cost share classes in order to compensate Prudential, in the aggregate, for servicing your retirement plan.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses before investing. For more

complete information about the investment options available through your plan, Please call 1-877-778-2100 for a free prospectus that contains this and other information about our funds. Please read the prospectus carefully before investing. It is possible to lose money investing in securities.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

Fund Fact Sheet User's Guide

This guide will help provide a glossary of terms and benchmark definitions commonly found on fund fact sheets.

In providing this information Prudential Retirement is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity. Prudential Retirement may benefit from advisory and other fees paid to it or its affiliates for managing, selling, or settling of Prudential's proprietary mutual funds, and other investment products or securities offered by Prudential Retirement or its affiliates. Investment vehicles sponsored or managed by a Prudential Retirement affiliate generate more revenue for the Prudential enterprise than non-proprietary investment vehicles.

Prudential Retirement will also benefit from participant managed account services provided by third party Registered Investment Advisers (RIA) and sales personnel will receive compensation based upon plan sponsor adoption of the managed account service provided by a third-party RIA.

Prudential Retirement's sales personnel generally receive greater compensation if plan assets are invested in proprietary investment vehicles. Sales personnel also receive compensation if plan sponsors/employers adopt other plan features such as automatic enrollment, automatic escalation, offshore sourcing, electronic delivery, GreenPath, Wellthy and other financial wellness services.

Prudential Retirement may benefit directly from the difference between investment earnings of Prudential Retirement's stable value funds and the amount credited to deposits in those funds. Prudential Retirement may also benefit from broker-dealer or other entities' co-sponsorship of Prudential conferences.

Benchmark Performance

The holdings and characteristics may differ from those of the benchmark(s), and such differences may be material. Factors affecting portfolio performance that do not affect benchmark performance may include portfolio rebalancing, the timing of cash flows, credit quality, diversification and differences in volatility. In addition, financial indices do not reflect the impact of fees, applicable taxes or trading costs which reduce returns. Unless otherwise noted, financial indices assume reinvestment of dividends. You cannot make a direct investment in an index. The statistical data regarding such indices has not been independently verified.

Fund/Portfolio Category

Morningstar, an investment research and investment management firm, assigns each mutual fund to a category, based on their actual investment style as measured by their underlying portfolio holdings over the past three years. Categories for Manager of Managers separate accounts are determined by Prudential.

Morningstar Style Box

The Morningstar Style Box™ reveals a fund's investment strategy. For equity funds the vertical axis shows the market capitalization of the long stocks owned and the horizontal axis shows investment style (value, blend, or growth).

For fixed-income funds, the vertical axis shows the credit quality of the long bonds owned and the horizontal axis shows interest rate sensitivity as measured by a bond's effective duration.

Morningstar seeks credit rating information from fund companies on a periodic basis (e.g., quarterly). In compiling credit rating information Morningstar accepts credit ratings reported by fund companies that have been issued by all Nationally Recognized Statistical Rating Organizations (NRSROs). For a list of all NRSROs, please visit <http://www.sec.gov/divisions/marketreg/ratingagency.htm>. Additionally, Morningstar accepts foreign credit ratings from widely recognized or registered rating agencies. If two rating organizations/agencies have rated a security, fund companies are to report the lower rating; if three or more organizations/agencies have rated a security, fund companies are to report the median rating, and in cases where there are more than two organization/agency ratings and a median rating does not exist, fund companies are to use the lower of the two middle ratings. PLEASE NOTE: Morningstar, Inc. is not itself an NRSRO nor does it issue a credit

Morningstar Style Box (continued)

rating on the fund. An NRSRO or rating agency ratings can change from time-to-time.

For credit quality, Morningstar combines the credit rating information provided by the fund companies with an average default rate calculation to come up with a weighted-average credit quality. The weighted-average credit quality is currently a letter that roughly corresponds to the scale used by a leading NRSRO. Bond funds are assigned a style box placement of "low", "medium", or "high" based on their average credit quality. Funds with a low credit quality are those whose weighted average credit quality is determined to be less than "BBB-"; medium are those less than "AA-", but greater or equal to "BBB-"; and high are those with a weighted-average credit quality of "AA-" or higher. When classifying a bond portfolio, Morningstar first maps the NRSRO credit ratings of the underlying holdings to their respective default rates (as determined by Morningstar's analysis of actual historical default rates). Morningstar then averages these default rates to determine the average default rate for the entire bond fund. Finally, Morningstar maps this average default rate to its corresponding credit rating along a convex curve.

For interest-rate sensitivity, Morningstar obtains from fund companies the average effective duration. Generally, Morningstar classifies a fixed-income fund's interest rate sensitivity based on the effective duration of the Morningstar Core Bond Index (MCBI), which is currently three years. The classification of Limited will be assigned to those funds whose average effective duration is between 25% to 75% of MCBI's average effective duration; funds whose average effective duration is between 75% to 125% of the MCBI will be classified as Moderate; and those that are at 125% or greater of the average effective duration of the MCBI will be classified as Extensive. For municipal bond funds, Morningstar also obtains from fund companies the average effective duration. In these cases static breakpoints are utilized. These breakpoints are as follows: (i) Limited: 4.5 years or less; (ii) Moderate: more than 4.5 years but less than 7 years; and (iii) Extensive: more than 7 years. In addition, for non-US taxable and non-US domiciled fixed income funds static duration breakpoints are used: (i) Limited: less than or equal to 3.5 years; (ii) Moderate: greater than 3.5 and less than equal to 6 years; (iii) Extensive: greater than 6 years.

Morningstar Style Box/Investment Style Box

While the category description tells you how the portfolio has been run in

Morningstar Style Box/Investment Style Box (continued)

the past, the Style Box is a snapshot of what the portfolio currently owns. For equity separate accounts, Investment Style Box data is based on a quarter lag and assigned by Prudential.

Morningstar Volatility Rank

The Morningstar Volatility Rank is an investment's 3-year standard deviation overall percentile rank within its US open-end, VA/L fund, or VA/L subaccount universe. The investment with the lowest standard deviation receives a rank of 1. We then classify investment portfolios as having one of three volatility levels relative to all types of mutual funds: Low, Moderate, and High. Investments with wider ranges of returns are labeled "high," as they are considered riskier than "low" volatility investments, which have had smaller ranges of returns.

Performance

The total return is shown for the quarter, year-to-date and preceding year, as well as the average annual total return for the past three, five, and 10 years if available. Since inception is also provided when applicable. To provide you with a point of comparison, the returns of the benchmark indexes are also provided.

Sector Allocation

Morningstar classifies each stock holding into 11 major industrial sectors for all Retail, Non-Qualified and Variable Annuity Fact sheets. The top five are listed on the Fund Fact Sheets. For Manager of Managers Institutional Equity Sub-Advised Separate Accounts Source of Sector Classification: S&P/MSCI.

Description of PRIAC Separate Accounts

In addition to registered mutual funds and bank collective trust funds, PRIAC makes available an array of insurance company separate accounts ("Separate Account") from which the retirement plan's fiduciary can construct the investment lineup for your retirement plan. A PRIAC Separate Account is an insurance company separate account whose investors include only qualified retirement plans and certain governmental retirement plans. PRIAC makes most Separate Accounts available as commingled investment vehicles; however, in certain instances, PRIAC may make a Separate Account available only to a single retirement plan client.

PRIAC offers a variety of different types of Separate Accounts through a group annuity contract issued by PRIAC. Each retirement plan's fiduciary is generally responsible for all investment decisions related to its plan and for selecting the investment options for the retirement plan's investment lineup. Each retirement plan's fiduciary is also responsible for monitoring and, if necessary, replacing the investment options on the retirement lineup. The following is a general description of the types of Separate Accounts offered by PRIAC.

A Custom Client Separate Account PRIAC provides investors with the information in this Fact Sheet to assist them in making investment decisions regarding the Fund. Investors must determine whether any other information is necessary in making those decisions. The investor is solely responsible for obtaining any other information required by the investor, which may not be available from PRIAC. To the extent PRIAC

provides such information, PRIAC makes no warranty as to the accuracy of such information and makes no undertaking to continue to provide such information unless PRIAC agrees to continue to provide such information in writing. The investor is solely responsible for the decision to invest or continue to invest in the Fund. PRIAC assumes no responsibility for any investor's decision to invest or continue to invest in the Fund. Selection or termination of the Fund on a retirement plan's investment line-up is the sole responsibility of each retirement plan's fiduciary. These Separate Accounts are not part of the Manager of Manager's program.

ISelect Platform: Limitation of PRIAC's Responsibilities Institutional Select Separate Accounts. PRIAC provides investors with the information in this Fact Sheet to assist them in making investment decisions regarding the Fund. Investors must determine whether any other information is necessary in making those decisions. The investor is solely responsible for obtaining any other information required by the investor, which may not be available from PRIAC. The investor is solely responsible for the decision to invest or continue to invest in the Fund. PRIAC assumes no responsibility for any investor's decision to invest or continue to invest in the Fund. These Separate Accounts are not part of the Manager-of-Managers program and therefore, PRIAC does not assume any responsibility with respect to the selection, monitoring, or replacement of the investment manager. Selection or termination of the Fund on a retirement plan's investment line-up is the sole responsibility of each retirement plan's fiduciary.

PRIAC Manager-of-Managers Institutional Sub-Advised Separate Accounts - With respect to separate accounts designated by Prudential as Institutional Sub-Advised Funds under the Manager-of-Managers Program, PRIAC acknowledges it is a fiduciary as defined by ERISA Section 3(38), as amended, for the selection, monitoring, and, if necessary, the replacement of the investment manager. Selection or termination of the fund on a retirement plan's investment line-up is the sole responsibility of each retirement plan's fiduciary.

PRIAC Manager-of-Managers Retail-Branded Sub-Advised Separate Accounts With respect to separate accounts designated by Prudential as Retail-Branded Sub-Advised Funds under the Manager-of-Managers Program, PRIAC acknowledges it is a fiduciary as defined by ERISA Section 3(38), as amended, for the selection, monitoring, and if necessary, replacement of the investment manager. Selection or termination of the Fund on a retirement plan's investment line-up is the sole responsibility of each retirement plan's fiduciary.

Proprietary Separate Accounts Proprietary Funds are managed by an affiliate of PRIAC. Although PRIAC may provide periodic monitoring with respect to certain Proprietary Funds, Proprietary Funds are not part of PRIAC's Manager-of-Managers Program, and therefore, PRIAC does not assume any responsibility with respect to the selection, monitoring, or replacement of the investment manager. Selection or termination of the Fund on a retirement plan's investment line-up is the sole responsibility of each retirement plan's fiduciary.

Prudential Retirement Separate Account Fund-of-Fund and Target Date Products: These separate accounts are manufactured by PRIAC and comprised of multiple underlying investment options. For fund-of-fund separate accounts for which PRIAC serves as an ERISA §3(38) investment manager, PRIAC is responsible for the selection, monitoring and replacement of underlying funds. This type of Separate Account offered by PRIAC is not part of the Manager of Manager's program, and therefore, unless otherwise noted, PRIAC does not assume any

responsibility with respect to the selection, monitoring, or replacement of the investment manager.

Custom Plan Investment Options (Recordkeeping Constructs)

These investment options are designed and maintained by your plan sponsor and/or the plan's investment adviser and are not investment options offered by PRIAC. PRIAC provides investors with the information in this Fact Sheet to assist them in making investment decisions regarding the investment option. Investors must determine whether any other information is necessary in making those decisions. The investor is solely responsible for obtaining any other information required by the investor, which may not be available from PRIAC. The investor is solely responsible for the decision to invest or continue to invest in the investment option. PRIAC assumes no responsibility for any investor's decision to invest or continue to invest in the investment option. Selection or termination of the Fund on a retirement plan's investment line-up is the sole responsibility of each retirement plan's fiduciary. These investment options are not part of the Manager-of-Managers program.

Description of PICA Separate Accounts

The Prudential Insurance Company of America, Inc. (PICA) makes available group annuity insurance contracts such as variable annuities and insurance company separate accounts to institutional clients. Each retirement plan's fiduciary is generally responsible for all investment decisions related to its plan and for selecting the investment options for the retirement plan's investment lineup. Each retirement plan's fiduciary is also responsible for monitoring and, if necessary, replacing the investment options on the retirement plan's investment lineup.

The FTSE Index performance will be reflected in the performance of the Day One Funds' custom benchmark index on a go-forward basis only; the custom benchmark's performance history will not be re-stated.

Prudential Day One 2045 Benchmark The custom benchmark reflects the normal weighted average of the respective Day One Fund's stock/non-traditional assets/bond/cash allocation, as represented by the S&P 1500 Composite Index, the Russell Developed ex North America Large Cap Index, the MSCI Emerging Markets Net Dividend Index, the Bloomberg Commodities Index, the PRREF Composite Index, the Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), the Bloomberg Barclays US Aggregate Bond Index and the Citigroup Three Month T-Bill. Effective January 1, 2013, the International asset class is represented in the mandate benchmark by the Russell Developed ex North America Large Cap Index, replacing the MSCI EAFE Net Dividend Index. Because the asset allocation of each Fund changes over time, the custom benchmark allocations also change over time. Effective close of business December 31, 2018, Russell discontinued the Russell Developed Ex-North America Large Cap Net Index. Therefore, also effective on December 31, 2018, the FTSE Developed Markets Ex-North America Index (FTSE Index) replaced the Russell Developed Ex-North America Large Cap Net Index as the primary performance benchmark for the Day One Funds' underlying PGIM QMA International Developed Markets Index Fund and a

component of the custom benchmark with respect to each Prudential Day One Fund. The FTSE Index performance will be reflected in the performance of the Day One Funds' custom benchmark index on a go-forward basis only; the custom benchmark's performance history will not be re-stated.

Prudential Day One 2050 Benchmark The custom benchmark reflects the normal weighted average of the respective Day One Fund's stock/non-traditional assets/bond/cash allocation, as represented by the S&P 1500 Composite Index, the Russell Developed ex North America Large Cap Index, the MSCI Emerging Markets Net Dividend Index, the Bloomberg Commodities Index, the PRREF Composite Index, the Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), the Bloomberg Barclays US Aggregate Bond Index and the Citigroup Three Month T-Bill. Effective January 1, 2013, the International asset class is represented in the mandate benchmark by the Russell Developed ex North America Large Cap Index, replacing the MSCI EAFE Net Dividend Index. Because the asset allocation of each Fund changes over time, the custom benchmark allocations also change over time. Effective close of business December 31, 2018, Russell discontinued the Russell Developed Ex-North America Large Cap Net Index. Therefore, also effective on December 31, 2018, the FTSE Developed Markets Ex-North America Index (FTSE Index) replaced the Russell Developed Ex-North America Large Cap Net Index as the primary performance benchmark for the Day One Funds' underlying PGIM QMA International Developed Markets Index Fund and a component of the custom benchmark with respect to each Prudential Day One Fund. The FTSE Index performance will be reflected in the performance of the Day One Funds' custom benchmark index on a go-forward basis only; the custom benchmark's performance history will not be re-stated.

Prudential Day One 2055 Benchmark The custom benchmark reflects the normal weighted average of the respective Day One Fund's stock/non-traditional assets/bond/cash allocation, as represented by the S&P 1500 Composite Index, the Russell Developed ex North America Large Cap Index, the MSCI Emerging Markets Net Dividend Index, the Bloomberg Commodities Index, the PRREF Composite Index, the Barclays U.S. Treasury Inflation-Protected Securities (TIPS) Index (Series-L), the Bloomberg Barclays US Aggregate Bond Index and the Citigroup Three Month T-Bill. Russell Developed Ex-North America Large Cap Net Index as the primary performance benchmark for the Day One Funds' underlying PGIM QMA International Developed Markets Index Fund and a component of the custom benchmark with respect to each Prudential Day One Fund. The FTSE Index performance will be reflected in the performance of the Day One Funds' custom benchmark index on a go-forward basis only; the custom benchmark's performance history will not be re-stated.

Prudential Retirement Real Estate Fund Benchmark For periods prior to and including September 30, 2012, the benchmark for this composite was comprised of the NCREIF Open-End Diversified Core Equity Fund Index (NFI-ODCE), the S&P Developed Property Index and the Citigroup U.S. Domestic Three Month Treasury Bill Total Return Index re-weighted on a monthly basis to correspond to the Fund's investment allocation. In order to better align the benchmark with the composite's strategic allocations, for periods October 1, 2012 to April 1, 2018, the benchmark for this composite was comprised of 75% NCREIF Open-End Diversified Core Equity Fund Index and 25% S&P Developed Property Index. PRREF's custom benchmark was changed when the fund transitioned their US REIT component from global real estate securities to a US-only REIT ETF (Vanguard's VNQ) on April 1, 2018. At that time VNQ, the new ETF, was in the process of changing their benchmark, so for a short period, there was a transition index used as a component of PRREF's custom benchmark. Subsequently, from April 1, 2018 through July 31, 2018, PRREF's benchmark was comprised of 75% of the NCREIF Open-End Diversified Core Equity Fund Index (ODCE), and 25% MSCI US Investable Market Real Estate 25/50 Transition Index. Effective August 1, 2018, PRREF's benchmark is comprised of 75% of the NCREIF Open-End Diversified Core Equity Fund Index (ODCE), and 25% MSCI US Investable Market Real Estate 25/50 Index. The MSCI US Investable Market Real Estate 25/50 Index is a free float-adjusted market capitalization weighted index that is comprised of Equity REIT securities. The MSCI US Investable Market Real Estate 25/50 Index is based on the MSCI USA Investable Market Index (IMI) ("the parent index"), which is comprised of all the securities included in the MSCI USA Large Cap, MSCI USA Mid Cap and MSCI USA Small Cap Indices. Note: The ODCE index is not professionally managed, does not have a defined investment objective, and does not incur fees or expenses. Investors cannot invest directly in the index.

Retirement Goal 2020 Primary Benchmark The custom benchmark for the Fund is a pro rata combination of the benchmarks for the Fund's underlying asset classes, based on the normal asset allocation for each Fund. The benchmark reflects the weighted average of the Fund's U.S. stock/international stock/bond/cash allocation, as represented by the Russell 3000 Index, the MSCI EAFE Index, the Bloomberg Barclays US Aggregate Bond Index and the Citigroup 3-Month T-Bill Index, respectively. Because the asset allocation of each Fund changes over time, the custom benchmark allocations also change over time.

Retirement Goal 2030 Primary Benchmark The custom benchmark for the Fund is a pro rata combination of the benchmarks for the Fund's underlying asset classes, based on the normal asset allocation for each Fund. Russell 1000 Index Measures the performance of the large-cap segment of the US equity universe. It is a subset of the Russell 3000 Index and represents approximately 92% of the US market. It includes approximately 1,000 of the largest securities based on a combination of their market cap and current index membership. The index is constructed to provide a comprehensive and unbiased barometer for the large-cap segment and is completely reconstituted annually to ensure new and growing equities are reflected.

Russell 1000 Value Index Measures the performance of the large-cap value segment of the US equity securities. It includes the Russell 1000 index companies with lower price-to-book ratios and lower expected growth values. It is market-capitalization weighted.

Russell 1000® Growth Index Measures the performance of the large-cap growth segment of the US equity securities. It includes the Russell 1000 index companies with higher price-to-book ratios and higher forecasted growth values. It is market-capitalization weighted.

Russell 2000® Growth Index Measures the performance of small-cap growth segment of the US equity universe. It includes those Russell 2000 companies with higher price/book ratios and higher predicted and forecasted growth values. It is market-capitalization weighted.

Russell 2000® Index Measures the performance of the small-cap segment of the US equity universe. It is a subset of the Russell 3000 Index and it represents approximately 8% of the US market. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership.

Russell 2000® Value Index Measures the performance of small-cap value segment of the US equity universe. It includes those Russell 2000 companies with lower price-to-book ratios and lower expected and historical growth values.

Russell 2500 Growth Index Measures the performance of the small to mid-cap growth segment of the US equity universe. It includes Russell 2500 index companies with higher price-to-book ratios and higher forecasted growth values. It is market-capitalization weighted.

Russell 2500® Index Measures the performance of the small to mid-cap segment of the US equity universe, commonly referred to as smid cap. It is a subset of the Russell 3000 index. It includes approximately 2,500 of the smallest securities based on a combination of their market cap and current index membership. The index is constructed to provide a comprehensive and unbiased barometer for the small to mid-cap segment. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small to mid-cap opportunity set.

Russell 2500® Value Index Measures the performance of the small to mid-cap value segment of the US equity universe. It includes Russell 2500 index companies with lower price-to-book ratios and lower expected and historical growth rates.

Russell 3000 Growth Index Measures the performance of the broad growth segment of the US equity universe. It includes Russell 3000 index companies with higher price-to-book ratios and higher forecasted growth values. It is market-capitalization weighted.

Russell 3000 Value Index Measures the performance of the broad value segment of US equity value universe. It includes Russell 3000 index companies with lower price-to-book ratios and lower forecasted growth values. It is market-capitalization weighted.

Russell 3000® Index Measures the performance of the largest 3,000 US companies representing approximately 98% of the investable US equity market. It is constructed to provide a comprehensive, unbiased and stable barometer of the broad market and is completely reconstituted annually to ensure new and growing equities are reflected.

Russell Developed ex North America Large Cap Index Net Measures the performance of all Russell Developed except North America large cap constituents. It follows the RGS (Russell Global Sectors) standards. The index is market weighted.

Russell Midcap Value Index Measures the performance of the mid-cap value segment of the US equity universe. It includes Russell midcap index companies with lower price-to-book ratios and lower forecasted growth values. It is market-capitalization weighted.

Russell Midcap® Growth Index Measures the performance of the midcap growth segment of the U.S. equity universe. It includes those Russell Midcap Index companies with higher price-to-book ratios and higher forecasted growth values.

Russell Midcap® Index Measures the performance of the mid-cap segment of the US equity universe. It is a subset of Russell 1000 index and includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership. The index represents approximately 31% of the total market capitalization of the Russell 1000 companies. It is constructed to provide a comprehensive and unbiased barometer for the mid-cap segment. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true mid-cap opportunity set.

Russell Top 200 Index Measures the performance of the largest cap segment of the US equity universe. It is a subset of the Russell 3000 index. It includes approximately 200 of the largest securities based on a combination of their market cap and current index membership and represents approximately 68% of the US market. The index is constructed to provide a comprehensive and unbiased barometer for this very large cap segment and is completely reconstituted annually to ensure new and growing equities are reflected.

S&P 1000 Index The S&P 1000® Index combines the S&P MidCap 400® and the S&P SmallCap 600® to form an investable benchmark for the mid- to small-cap segment of the U.S. equity market.

S&P 1500 Cons Discretionary TR The S&P Composite 1500® Consumer Discretionary Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® consumer discretionary sector.

S&P 1500 Cons Staples TR The S&P Composite 1500® Consumer Staples Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® consumer staples sector.

S&P 1500 Energy TR The S&P Composite 1500® Energy Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® energy sector.

S&P 1500 Financials TR The S&P Composite 1500® Financials Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® financials sector.

S&P 1500 Health Care TR The S&P Composite 1500® Health Care Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® health care sector.

S&P 1500 Index The S&P Composite 1500® combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600® to cover approximately 90% of the U.S. market capitalization. It is designed for investors seeking to replicate the performance of the U.S. equity market or benchmark against a representative universe of tradable stocks.

S&P 1500 Industrials TR The S&P Composite 1500® Industrials Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® industrials sector.

S&P 1500 Telecom Services TR The S&P Composite 1500® Communication Services comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® communication services sector.

S&P 1500 Utilities TR The S&P Composite 1500® Utilities Index comprises those companies included in the S&P Composite 1500 that are classified as members of the GICS® utilities sector.

S&P 500 Information Technology Comprises those companies included in the S&P 500 that are classified as members of the GICS® information technology sector.

S&P 500 Index The S&P 500® is widely regarded as the best single gauge of large-cap U.S. equities. There is over USD 7.8 trillion benchmarked to the index, with index assets comprising approximately USD 2.2 trillion of this total. The index includes 500 leading companies and captures approximately 80% coverage of available market capitalization.

S&P 500 Industrials The S&P 500® Industrials Index comprises those companies included in the S&P 500 that are classified as members of the GICS® industrials sector

S&P 500 Technology Index Measures the performance of all those companies held in the S&P 500 index that are classified as a information technology(sector) company using the Global Industry Classification Standard(GICS) system.

S&P 500 Telecomm Service The S&P 500® Telecommunication Services Index comprises those companies included in the S&P 500 that are classified as members of the GICS® telecommunication services sector.

S&P 500 Value Index We measure value stocks using three factors: the ratios of book value, earnings, and sales to price. S&P Style Indices divide the complete market capitalization of each parent index into growth and value segments. Constituents are drawn from the S&P 500®.

S&P 500-Consumer Discretionary The S&P 500® Consumer Discretionary Index comprises those companies included in the S&P 500 that are classified as members of the GICS® consumer discretionary sector.

S&P 500-Energy The S&P 500® Energy Index comprises those companies included in the S&P 500 that are classified as members of the GICS® energy sector.

S&P 500-Financial Services The S&P 500® Financials Index comprises those companies included in the S&P 500 that are classified as members of the GICS® financials sector.

S&P 500-Health Care The S&P 500® Health Care Index comprises those companies included in the S&P 500 that are classified as members of the GICS® health care sector.

S&P 500-Utilities The S&P 500® Utilities Index comprises those companies included in the S&P 500 that are classified as members of the GICS® utilities sector.

S&P 600 Index The S&P SmallCap 600® Index (S&P 600) is a stock market index established by Standard & Poor's. It covers roughly the small-cap range of US stocks, using a capitalization-weighted index.

S&P Composite 1500® Index The S&P Composite 1500® combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600® to cover approximately 90% of the U.S. market capitalization. It is designed for investors seeking to replicate the performance of the U.S. equity market or benchmark against a representative universe of tradable stocks.

S&P Developed Property Index This index defines and measures the investable universe of publicly traded property companies domiciled in developed markets. The companies in the index are engaged in real estate related activities, such as property ownership, management, development, rental and investment.

S&P Global Infrastructure Index The S&P Global Infrastructure Index is designed to track 75 companies from around the world chosen to represent the listed infrastructure industry while maintaining liquidity and tradability. To create diversified exposure, the index includes three distinct infrastructure clusters: energy, transportation, and utilities.

S&P Global REIT Measures the performance of publicly traded equity REITs listed in both developed and emerging markets. It is a member of the S&P Global Property Index Series.

S&P MidCap 400 Growth Index Measures growth stocks using three factors: sales growth, the ratio of earnings change to price, and momentum. S&P Style Indices divide the complete market capitalization of each parent index into growth and value segments. Constituents are drawn from the S&P MidCap 400®.

S&P MidCap 400 Index The S&P MidCap 400® provides investors with a benchmark for mid-sized companies. The index, which is distinct from the large-cap S&P 500®, measures the performance of mid-sized companies, reflecting the distinctive risk and return characteristics of this market segment.

S&P North American Natural Resources TR The S&P North American Natural Resources Index provides investors with a benchmark that represents U.S. traded securities that are classified under the GICS® energy and materials sector excluding the chemicals industry; and steel sub-industry.

S&P United States REIT Measures the performance of investable universe of publicly traded real estate investment trusts domiciled in the United States.

S&P/LSTA Leveraged Loan Index The S&P/LSTA Leveraged Loan Index represents the U.S. Senior loan market.

S&P500-Consumer Staples The S&P 500® Consumer Staples Index comprises those companies included in the S&P 500 that are classified as members of the GICS® consumer staples sector.

Spliced Bloomberg Barclays U.S. Treasury 3-10 Year Index
Bloomberg Barclays U.S. 3-10 Year Government Float Adjusted Index through December 11, 2017; Bloomberg Barclays U.S. Treasury 3-10 Year Bond Index thereafter.

USTREAS Treasury Bill Constant Maturity Rate 3 Year This index is an average yield on United States Treasury securities adjusted to a constant maturity of 3 year, as made available by the Federal Reserve Board. Yields are interpolated by the United States Treasury from the daily yield curve.

Guaranteed Income Fund

A Stable Value Fund

Third Quarter 2021 Fund Fact Sheet

Key Facts	
Issuer	Prudential Retirement Insurance and Annuity Company
Investment Advisor	PGIM, Inc.
Asset Class	Stable Value
Net Assets	\$22,367.0 Million
Inception Date	01/01/1981
U.S. Treasury Rate	As of 09/30/2021

There is no applicable benchmark for the product as it utilizes various asset classes to support its guarantees and liability dynamics in order to produce desirable balance between interest crediting rate responsiveness and stability. However, it is common to benchmark the product against various indices, which include 3 or 5 year Treasury, Money Markets and other fixed income indices (i.e. Bloomberg Barclays U.S. Intermediate Aggregate Bond Index).

Description / Objective

The Guaranteed Income Fund (GIF) is a Stable Value fund designed to provide safety of principal, liquidity, and a competitive rate of return.

The Fund Offers

- > Stability of crediting rate
- > Guaranteed protection of principal and accumulated interest from market volatility
- > Intermediate-term fixed income returns

Features

> Principal and accumulated interest are fully guaranteed by Prudential Retirement Insurance and Annuity Company (PRIAC).

> The guaranteed interest rate is announced in advance and is guaranteed for a six-month period. A minimum rate will apply.

> GIF invests in a broadly diversified, fixed-income portfolio within PRIAC's general account. The portfolio is primarily invested in public bonds, commercial mortgages and private placement bonds.

Other/Risks

In most circumstances, Participants may not directly transfer amounts from Guaranteed Income Fund to a competing fund. A transfer out of this investment must be directed to and remain in a non-competing fund for a period of 90 days before it can be invested in a competing fund.

Competing funds are generally short-term fixed income investments, money market funds or stable value investments that may be available as a Plan investment option. However, the transfer provisions and competing fund definitions may differ depending on the provisions of the group annuity contract.

A "pool" consists of similar contracts that are funded with us in the same calendar year.

Prudential reserves the right to defer certain withdrawals from GIF assets if the amount of withdrawals and transfers to date for that pool is greater than 10% of the pool's beginning balance for that calendar year. However, distributions resulting from a plan participant's termination of employment, retirement, death or disability, hardship withdrawals and minimum required distributions will always be paid in full and not deferred.

Additionally, when your Plan's group annuity contract terminates, payments from the Guaranteed Income Fund may be delayed depending on the terms of the group annuity contract (which may result in a delay in payments by the Plan. The Customer Service Center can answer questions regarding these provisions applicable to a Plan.

Portfolio Allocation	As of 09/30/2021	Characteristics	As of 09/30/2021
	Public Corporate Bonds	39.00%	Guarantee Quality
	Commercial Mortgage Loans	19.00%	Average Duration
	Private Securities	17.00%	Total High Yield Exposure
	ABS	8.00%	Fund AA-
	CMBS	6.00%	3.4
	US Treasury & Agencies	4.00%	2.21%
	Agency MBS	3.00%	
	Cash and Short Term	3.00%	
	Other	2.00%	

Allocations are subject to change.

Commercial Mortgage Loans may include agriculture loans, transfer employee mortgages and residential mortgages

Other may include equity, real estate and derivatives used to hedge various risks

CMBS = Commercial Mortgage Backed Securities, ABS = Asset Backed Securities, RMBS = Residential Mortgage Backed Securities, CMO = Collateralize Mortgage Obligation Securities

An annual rate guarantee may apply to certain 403(b) or nonqualified plan arrangements. Contact Prudential for further information.

Frequent exchanging between plan investment options may harm long-term investors. Your plan or the plan's investment funds may have provisions to deter exchanges that may be abusive. These policies may require us to modify, restrict or suspend purchase or exchange privileges and/or impose redemption fees.

Guarantee Quality represents the Standard & Poor's claims-paying rating of the issuing company. Claims-paying ratings represent the opinions of rating agencies regarding the financial ability of an insurance company to meet its obligations under its insurance policies. According to Standard &

Poor's publications, an insurer rated 'AA-' (4th category of 21) has very strong financial security characteristics, differing only slightly from those rated higher. An insurer rated "AAA" has extremely strong financial security characteristics. "AAA" is the highest Insurer Financial Strength Rating assigned by Standard & Poor's.

All guarantees are based on the claims-paying ability of the issuing company.

Duration is a time measure (in years) of a fixed income security's interest-rate sensitivity. Average duration is a weighted average of the duration of the underlying fixed-income securities within the portfolio.

PGIM, Inc. is a Prudential Financial company. PGIM, Inc. is a registered investment adviser.

The Guaranteed Income Fund (GIF) is a group annuity product issued by **Prudential Retirement Insurance and Annuity Company (PRIAC)**, Hartford, CT. Amounts contributed to the contract are deposited into PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC. PRIAC periodically resets the interest rate credited on contract balances, subject to a minimum rate specified in the group annuity contract. Past interest rates are not indicative of future rates. This product is neither a mutual fund nor a bank product. PRIAC obligations are not insured by the FDIC or any other federal government agency. **Contract form #GA-2020-IA-0805 or state variation thereof.** Prudential Retirement is compensated in connection with this product when general account investment returns exceed the interest credited on contract balances. Prudential Retirement may earn fee revenue plus the foregoing compensation if your plan has agreed to pay contract charges--which are sometimes paid with respect to plan/participant recordkeeping and distribution services. For some plans, Prudential Retirement uses a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses. If Prudential Retirement's aggregate compensation from this and other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise, there is a loss.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

This material is intended to provide information only. This material is not intended as advice or recommendation about investing or managing your retirement savings. By sharing this information, Prudential Retirement® is not acting as your fiduciary as defined by the Department of Labor or otherwise. If you need investment advice, please consult with a qualified professional.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Morningstar Volatility Rank As of 12/31/2021

Investment

Low	Moderate	High
-----	----------	------

Category

In the past, this investment has shown a relatively small range of price fluctuations relative to other investments. Based on this measure, currently more than two thirds of all investments have shown higher levels of risk. Consequently, this investment may appeal to investors looking for a conservative investment strategy.

Morningstar® Style Box™ As of 11/30/2021

<BBB

The horizontal axis represents the Fund's sensitivity to interest rates as measured by the average effective duration: Ltd <=3.5 Yrs; Mod > 3.5 Yrs and <=6 Yrs; Ext > 6 Yrs

Description / Objective

The investment seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg U.S. Aggregate Bond Index. The fund normally invests at least 80% of the fund's assets in bonds included in the Bloomberg U.S. Aggregate Bond Index. Its manager uses statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Bloomberg U.S. Aggregate Bond Index using a smaller number of securities. The fund invests in Fidelity's central funds.

There is no assurance the objectives will be met.

Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise. Fund shares are not guaranteed by the U.S. Government.

*Fees that Prudential Retirement and its affiliates may receive in connection with plan investments in this fund include:

Finders Fee	No	12b-1 Fee	0%
Sub-accounting fee (\$ per participant)	--	Sub-accounting fee %	0%
Other Service fee (\$ per participant)	--	Other Service fee %	0%

Fees if applicable to this fund, compensate Prudential Retirement for selling the fund's shares and servicing your retirement plan. The fund's expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other share classes of this fund may have a lower expense ratio, but your plan's investment options do not include such shares to compensate us for distribution and plan servicing.

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Open End Mutual Funds, Closed End Mutual Funds, or Variable Annuity Underlying Funds)

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™

Annual Performance		
	Fund	Primary Index
2021	-1.79%	-1.54%
2020	7.80%	7.51%
2019	8.48%	8.72%
2018	0.01%	0.01%
2017	3.50%	3.54%

Market Timing: Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions. The index shown, if applicable, in the Characteristics chart refers to the primary index.

based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a funds' monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results. **Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus, and if available the summary prospectus, contain complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus and if available, a summary prospectus that contain this and other information about the mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.**

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

12b-1 Fee An annual marketing or distribution fee on a mutual fund. The 12b-1 fee is considered an operational expense and, as such, is included in a fund's expense ratio. It is generally between 0.25-1% (the maximum allowed) of a fund's net assets.

Average Maturity For a single bond, it is a measure of maturity that takes into account the possibility that a bond might be called back to the issuer.

For a portfolio of bonds, average effective maturity is the weighted average of the maturities of the underlying bonds. The measure is computed by weighing each bond's maturity by its market value with respect to the portfolio and the likelihood of any of the bonds being called. In a pool of mortgages, this would also account for the likelihood of prepayments on the mortgages.

Effective Duration Calculated for a bond with an embedded option when the value is calculated to include the expected change in cash flow caused by the option as interest rates change. This measures the responsiveness of a bond's price to interest rate changes, and illustrates the fact that the embedded option will also affect the bond's price.

Finders Fee A commission paid to an entity who served as the facilitator of a transaction.

Gross Expense Ratio The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Other Service fee % Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Other Service fee (\$ per participant) Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Portfolio Turnover (%) This is a measure of the fund's trading activity, which is computed by taking the lesser of purchases or sales (excluding all securities with maturities of less than one year) and dividing by average monthly net assets. A low turnover figure (20% to 30%) would indicate a buy-and-hold strategy. High turnover (more than 100%) would indicate an investment strategy involving considerable buying and selling of securities.

Sub-accounting fee % Encompasses sub-transfer agent, administrative, sub-accounting, and

other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Sub-accounting fee (\$ per participant) Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

High Grade Bond / GSAM Fund

Description / Objective
 The Separate Account (the "Fund") is advised by Goldman Sachs Asset Management, L.P. (GSAM) pursuant to its Core High Quality Fixed Income strategy. The strategy invests in high quality domestic and international government, corporate and mortgage-backed fixed income securities. GSAM seeks to outperform the Bloomberg Barclays U.S. Aggregate Bond index over a full market cycle.
 There is no assurance the objectives will be met.
Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise. Fund shares are not guaranteed by the U.S. Government.

Fund Fees Reflected in Performance. The Separate Account was established 9/30/1999. Currently all performance results are net of the highest management fee for this Fund of 0.80%. Actual Fund performance is also net of other Fund operating expenses of 0.031% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so,

Annual Performance		
	Fund	Primary Index
2021	-2.25%	-1.54%
2020	8.00%	7.51%
2019	9.09%	8.72%
2018	-0.98%	0.01%
2017	2.87%	3.54%

For more information, go to www.prudential.com. All Plan Sponsors (or authorized representatives of Plan Sponsors) participating in the commingled accounts are generally provided with uniform written reports regarding these products. To the extent a Plan Sponsor requests additional information or perspective from the portfolio manager, we will make such information available to any Plan Sponsor who makes a similar request.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits. Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

Average Maturity For a single bond, it is a measure of maturity that takes into account the possibility that a bond might be called back to the issuer. For a portfolio of bonds, average effective maturity is the weighted average of the maturities of the underlying bonds. The measure is computed by weighing each bond's maturity by its market value with respect to the portfolio and the likelihood of any of the bonds being called. In a pool of mortgages, this would also account for the likelihood of prepayments on the mortgages.

Effective Duration Calculated for a bond with an embedded option when the value is calculated to include the expected change in cash flow caused by the option as interest rates change. This measures the responsiveness of a bond's price to interest rate changes, and illustrates the fact that the embedded option will also affect the bond's price.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Portfolio Turnover (%) This is a measure of the fund's trading activity, which is computed by taking the lesser of purchases or sales (excluding all securities with maturities of less than one year) and dividing by average monthly net assets. A low turnover figure (20% to 30%) would indicate a buy-and-hold strategy. High turnover (more than 100%) would indicate an investment strategy involving considerable buying and selling of securities.

Prudential Day One® IncomeFlex® Target Balanced Fund

Prudential Retirement Separate Accounts - Target Date Fund

Fourth Quarter 2021 Fund Fact Sheet

Net Assets	\$870.0 Million
Inception Date	06/30/2009
Funding Date	09/22/2009
Net Expense Ratio	1.587%
Morningstar Category	Target-Date Retirement
Morningstar Overall Rating™	★★★★★
Overall # of Funds in Morningstar Category	151

Overall Morningstar Rating as of quarter ending 12/31/2021. The Morningstar Rating shown is for this expense ratio and assumes no contract charges are imposed. Other expense ratios may have different performance characteristics. ©2021 Morningstar, Inc. All Rights Reserved. Additional Morningstar information is available in this factsheet.

For Prudential Day One IncomeFlex Target, the target-date is the approximate year when investors plan to retire and may begin withdrawing their money. The asset allocation of the target-date funds will become more conservative until the date which is ten years prior to the target-date by lessening the equity exposure and increasing the exposure in fixed income investments. The principal value of an investment in a target-date fund is not guaranteed at any time, including the target-date. There is no guarantee that the fund will provide adequate retirement income. A target-date fund should not be selected solely based on age or retirement date. Before investing, participants should carefully consider the fund's investment objectives, risks, charges and expenses, as well as their age, anticipated retirement date, risk tolerance, other investments owned, and planned withdrawals. The stated asset allocation may be subject to change. It is possible to lose money in a target-date fund, including losses near and following retirement. These risks may be increased to the extent investors begin to make withdrawals from the fund significantly before the target date. Investments in the Funds are not deposits or obligations of any bank and are not insured or guaranteed by any governmental agency or instrumentality. For investors close to or in retirement, the fund's equity exposure may result in investment volatility that could reduce an investor's available retirement assets when they are needed. For investors farther from retirement, there is risk that a fund may invest too much in investments designed to ensure capital conservation and/or current income, which may prevent the investor from meeting his or her retirement goals.

OBJECTIVE

The fund is a multi-asset class fund which offers a distinct risk/return profile. The fund is a member of the Prudential Day One® IncomeFlex® Target Funds (the "Funds"), a series of target date funds designed to be integrated with the Prudential IncomeFlex Target® retirement income solution – a group variable annuity offered as a retirement plan option that features a guaranteed minimum withdrawal benefit for an additional fee.

DESCRIPTION

The Fund is intended to provide a disciplined and diversified investment solution. The Fund's asset allocation is designed to maximize the potential that the participant's account balance, in conjunction with the Prudential IncomeFlex Target® guarantees, will provide a reliable source of lifetime income. The Prudential IncomeFlex Target® guarantees are supported by the general account of Prudential Retirement Insurance and Annuity Company; the Fund itself provides no guarantees. The Fund maintains a static asset allocation. There is no guarantee the Fund will provide adequate retirement income.

The Funds are available for investment by certain retirement, pension and profit-sharing plans and other eligible investors. The Funds are designed to provide a mix of traditional and non-traditional asset classes. The Funds are each a "fund of funds" that will invest in other pooled investment vehicles, including insurance company separate accounts, collective investment funds and/or mutual funds (the "Underlying Funds"). The Underlying Funds will, in turn, invest in a combination of stocks, bonds and non traditional asset classes (commodities and real estate).

The asset allocation strategy and glidepath of the Fund is intended to maximize the potential that the participant's account balance will provide a source of retirement income. There is no guarantee, however, that any Fund will meet its investment objective or provide a source of retirement income.

Each target date Fund's asset allocations are determined by the fund's glidepath that will become more conservative as the Fund's target date approaches, and for ten years following the Fund's target date, by reducing equity investments and increasing fixed income investments. Ten years after the target date and continuing thereafter, the asset allocation of the Fund will be similar to the Day One IncomeFlex Target Balanced Fund, with approximately 60% of the Fund allocated to equity and non-traditional investments, and approximately 40% allocated to fixed-income investments.

GLIDEPATH SUBADVISOR PGIM Quantitative Solutions LLC, an SEC-registered investment adviser and a Prudential Financial, Inc. company, has been engaged by PRIAC to provide certain asset allocation and other investment advice relating to the operation of the Funds. The manager's asset allocation outlook will be incorporated into the Funds' Glidepath and Underlying Fund allocations.

The Prudential Day One IncomeFlex Target Balanced Fund:

- > Is rebalanced to maintain the predetermined asset allocation mix dictated by the Glidepath among the Underlying Funds. While each Fund is invested in a number of Underlying Funds, the component results are aggregated to produce one all-inclusive return. The performance benchmarks are a pro rata combination of the benchmarks for each Fund's underlying asset classes, based on the asset allocation for the Fund.
- > The Fund maintains an asset allocation of approximately 60% of the Fund allocated to equity and non-traditional investments, and approximately 40% allocated to fixed-income investments.
- > Is expected to maintain the same management fee.
- > Is reviewed periodically by PRIAC and PGIM Quantitative Solutions LLC to determine whether the Glidepath and the Underlying Funds of the target-date and income Funds remain suitable to meet the Fund's investment objectives. As a result of this review, PRIAC may modify the Glidepath, asset allocations and/or Underlying Funds. Management fees will not increase as a result of changes to the Glidepath, allocations, or changes to the Underlying Funds.

There is no assurance the objectives will be met.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Fund Fees Reflected in Performance. Prudential Day One® IncomeFlex® Target Balanced Fund expenses include Management Fee 1.57%. Other expenses for the Fund for the prior calendar year were 0.017%. Fees and expenses may vary, and they may be higher or lower in the future. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers or commission recaptures.

We apply an IncomeFlex guarantee fee of 1.00%. Participants who elect the optional Spousal Benefit will incur no additional cost, but will receive a reduced withdrawal benefit. PRIAC reserves the right to increase this fee up to a maximum of 1.50%, but has no current intention to do so. Any increase would apply only to new deposits into Funds and step-up transactions.

The Fund commenced operations on 6/30/2009, which is the date that (1) the Fund began operations in accordance with the allocations dictated by the Funds' Glidepath, and (2) PRIAC began calculating daily unit values for the Funds.

Although the Fund commenced operations on 6/30/2009, the Fund did not receive initial funding from investor plans until the applicable Funding Date listed in the "Key Facts" table. On Fund vintages earlier than 2065, PRIAC calculated daily unit values prior to the applicable Fund Date based on the performance of the Underlying Funds in the fund-of-funds structure, weighted in accordance with the asset allocation of each Underlying Fund as specified by the Fund's Glidepath.

The current rebalancing frequency is a combination of monthly and tolerance-based rebalancing ("Monthly/Tolerance Based Rebalancing"). At every month end, each Fund will automatically rebalance to its target allocations (as then in effect) with respect to the underlying funds in which the Fund is invested (the "Underlying Funds," or each an "Underlying Fund"). In addition, each Fund will be evaluated daily with respect to its target allocations to the Underlying Funds. If market movements cause any Underlying Fund to deviate more than 5% relative to the target allocation to such Underlying Fund, there will be an automatic rebalancing of that Underlying Fund and any such other Underlying Funds as may be necessary to return all Underlying Funds to their respective target allocations as then in effect.

The performance track record reflects annual ratcheting along the Fund's Glidepath as well as daily rebalancing prior to January 2, 2015 and Monthly/Tolerance Based Rebalancing effective January 2, 2015. The performance track record for each Fund also reflects the management fee and the other expenses of the Fund actually incurred (which vary from year to year). Unlike the results shown in the performance record beginning with a Fund's Funding Date, performance prior to the Funding Date does not represent actual investment by the Fund in the Underlying Funds. If the Fund had actually invested in the Underlying Fund prior to the applicable Funding Date, it is possible that the performance of the Underlying Funds could have been different and the expenses of the Fund could have been different, each of which could have affected performance of the Fund.

Please note that the performance information reflects changes made to the Underlying Funds as of the date the Funds made the change. The following changes are reflected in the performance track record of each Fund (as applicable): • On September 22, 2010, the QMA Small Cap Blend Enhanced Index Fund sleeve was replaced with the Jennison Small Cap Core Equity Fund. • On December 7, 2011, the Bache Commodities Total Return Fund sleeve was replaced with the Jefferies Commodity Strategies Fund. Subsequently on April 16, 2012, the Jefferies Commodity Strategies Fund changed its name to the CoreCommodity Strategies Fund. • On January 4, 2016, the Prudential Total Return Bond Fund was added as a new Underlying Fund. • On March 29, 2018 PGIM Quantitative Solutions LLC (f.k.a. QMA until 9/28/21) replaced CoreCommodity Management, LLC as the investment manager of the corresponding Underlying Fund, and QMA Commodity Strategy Fund was renamed PGIM Quant Solutions Commodity Strategy Fund.

Prudential Day One® IncomeFlex® Target Balanced Fund

Prudential Retirement Separate Accounts - Target Date Fund

Fourth Quarter 2021 Fund Fact Sheet - Page 3

Glidepath and asset allocations are as of the calendar quarter referenced above. The asset allocation changes over time. PRIAC, together with PGIM Quantitative Solutions LLC, may change the Glidepath, asset allocations and Underlying Funds. Multiple assumptions were used in the modeling of the Glidepath. For example, the Glidepath assumes contributions begin at approximately age 18 and retirement occurs at approximately age 65. Individual investor experience can vary depending on timing and duration of investment in the product, contribution rates, etc.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

To maintain the IncomeFlex Target benefit, you must invest in one or more of the Day One IncomeFlex Target Funds. Like all variable investment options, these Funds may lose value. Withdrawals in excess of the annual guaranteed withdrawal amount will reduce future guaranteed withdrawals proportionately. Guarantees are based upon the claims-paying ability of PRIAC. PRIAC does not make any guarantee of investment performance or return of contributions to the Funds. Before purchasing this product, you should consider the objectives, risks, charges and expenses of the Funds and guarantee features, and you should carefully review the IncomeFlex Target Important Considerations. Product availability and terms may vary by jurisdiction. Subject to regulatory approvals. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Policy forms currently available include GA-2020-IA-0805, GA-2020-IA, GA-2005-A, GA-2020-TGWB4-0805, GA-2020-TGWB5-0805, GA-2020-SAF, GA-2020-SAE-0805, SAE-REV1, GA-2020-SAE-REV1 or state variation. Policy addendums for investments in the separate accounts or to add certain Income Flex Riders may have been selected by your Plan.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts or Custom Plan Investment Options" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

All investing involves risk and there is no guarantee the objectives of a Fund or Underlying Funds will be achieved. An investment in a Day One Fund is subject to the risks of the investments of each Underlying Fund, which include: With respect to investment in equities, stock prices are more volatile

Prudential Day One® IncomeFlex® Target Balanced Fund

Prudential Retirement Separate Accounts - Target Date Fund

Fourth Quarter 2021 Fund Fact Sheet - Page 4

than bond prices over the long term, and the value of such investment will fluctuate with changes in market conditions. Large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential. Small and mid-cap investments may be more volatile than large-cap investments, and investments in non-U.S. markets may be more volatile than domestic investments due to currency fluctuation and possible political uncertainty. Investments in emerging markets are subject to greater volatility and price declines. Derivatives can increase losses and reduce opportunities for gains when market prices, interest rates, currency rate or the derivatives themselves behave in a way not anticipated by the fund. Fixed-income investments may fluctuate based on interest rate changes, with the value declining as interest rates rise, and are subject to the risk that the company may not be able to make timely payments of principal and interest. Further, TIPS may experience greater losses than other fixed-income securities with similar durations. Unique risks associated with real estate and commodities may cause these investments to react differently to market conditions than traditional investments. Commodities may be speculative and more volatile than investments in more traditional equity and debt securities. Diversification does not assure a profit or protect against loss. These risks may increase the Fund's share price volatility.

PGIM Quantitative Solutions LLC, Jennison Associates and PGIM are registered investment advisers and Prudential Financial companies. PGIM Fixed Income and PGIM Real Estate are units of PGIM.

For more information, go to www.prudential.com or call toll-free 1-877-778-2100.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Description / Objective
 The Separate Account (the "Fund") is advised by Wellington Management Company LLP according to its underlying Value and Core Bond investment styles. It seeks to achieve long-term total return through capital appreciation and current income by investing in a combination of equity and fixed income securities. Wellington Management is an independent and unaffiliated sub-advisor to Prudential.
 There is no assurance the objectives will be met.
Keep in mind that application of asset allocation and diversification concepts does not assure a profit or protect against loss in a declining market. It is possible to lose money by investing in securities.
Fixed income investments are subject to interest rate risk and their value will decline as interest rates rise. It is possible to lose money by investing in securities.

Fund Fees Reflected in Performance. The Separate Account was established 9/4/1999. Currently all performance results are net of the highest management fee for this Fund of 0.95%. Actual Fund performance is also net of other Fund operating expenses of 0.016% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3

As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

3-5 Year EPS Growth (%) Calculated by taking the mean of each security's estimated earnings per share (EPS) long term growth rate. The EPS long term growth rate for each security is determined by taking the mean of all of the brokers estimates for EPS long term growth per security.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Weighted Median Market Cap (\$Bil) Calculated by ranking all stocks in a portfolio in ascending order based on total market capitalization. Using the stock's weight in a portfolio, the weighted

- The horizontal axis represents the Fund's investment style expressed on a value-to-growth scale, relative to appropriate style benchmark indices.

Description / Objective

The Separate Account (the "Fund") is advised by Barrow, Hanley, Mewhinney & Strauss, LLC following their Large Cap Value strategy. It seeks appreciation of capital and to outperform the Russell 1000® Value benchmark over the rolling 3 and 5-year periods, or a full market cycle, whichever is longer.

There is no assurance the objectives will be met.

Investments in large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential.

The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

3-5 Year EPS Growth (%) Calculated by taking the mean of each security's estimated earnings per share (EPS) long term growth rate. The EPS long term growth rate for each security is determined by taking the mean of all of the brokers estimates for EPS long term growth per security.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Weighted Median Market Cap (\$Bil) Calculated by ranking all stocks in a portfolio in ascending order based on total market capitalization. Using the stock's weight in a portfolio, the weighted

Description / Objective

The Separate Account (the "Fund") is advised by LSV Asset Management following their Large Cap Value strategy. It seeks appreciation of capital and to outperform the Russell 1000® Value Index over rolling 3- and 5-year periods, or a full market cycle, whichever is longer.

There is no assurance the objectives will be met.

Investments in large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential.

Fund Fees Reflected in Performance. The Separate Account was established 7/28/2002. Currently all performance results are net of the highest management fee for this Fund of 0.95%. Actual Fund performance is also net of other Fund operating expenses of 0.014% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar

For more information, go to www.prudential.com. All Plan Sponsors (or authorized representatives of Plan Sponsors) participating in the commingled accounts are generally provided with uniform written reports regarding these products. To the extent a Plan Sponsor requests additional information or perspective from the portfolio manager, we will make such information available to any Plan Sponsor who makes a similar request.

Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

Description / Objective
 The investment seeks to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States. The fund normally invests at least 80% of assets in common stocks included in the S&P 500® Index, which broadly represents the performance of common stocks publicly traded in the United States. It lends securities to earn income.

There is no assurance the objectives will be met.

Investments in large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential.

*Fees that Prudential Retirement and its affiliates may receive in connection with plan investments in this fund include:

Finders Fee	No	12b-1 Fee	0%
Sub-accounting fee (\$ per participant)	--	Sub-accounting fee %	0%
Other Service fee (\$ per participant)	--	Other Service fee %	0%

Fees if applicable to this fund, compensate Prudential Retirement for selling the fund's shares and servicing your retirement plan. The fund's expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other share classes of this fund may have a lower expense ratio, but your plan's investment options do not include such shares to compensate us for distribution and plan servicing.

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Open End Mutual Funds, Closed End Mutual Funds, or Variable Annuity)

2017	21.81%	21.83%	21.69%

Underlying Funds)

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a funds' monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results. **Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus, and if available the summary prospectus, contain complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus and if available, a summary prospectus that contain this and other information about the mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.**

Market Timing: Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions. The index shown, if applicable, in the Characteristics chart refers to the primary index.

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

12b-1 Fee An annual marketing or distribution fee on a mutual fund. The 12b-1 fee is considered an operational expense and, as such, is included in a fund's expense ratio. It is generally between 0.25-1% (the maximum allowed) of a fund's net assets.

3-Year Earnings Growth Rate (%) A measure of how a stock's earnings per share (EPS) has grown over the last three years. Morningstar uses EPS from continuing operations to calculate this growth rate. For portfolios, this data point is the share-weighted collective earnings growth for all stocks in the current portfolio. The historical earnings growth rate can tell investors how quickly a company's profits are growing.

Finders Fee A commission paid to an entity who served as the facilitator of a transaction.

Gross Expense Ratio The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Other Service fee % Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Other Service fee (\$ per participant) Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio;

they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Sub-accounting fee % Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Sub-accounting fee (\$ per participant) Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Weighted Geometric Market Cap (\$Bil) Calculated by raising the market capitalization of each stock to a power equal to that stock's weight in the portfolio. The resulting numbers multiplied together produce the geometric mean of the market caps of the stocks in the portfolio.

- The horizontal axis represents the Fund's investment style expressed on a value-to-growth scale, relative to appropriate style benchmark indices.

Description / Objective
The Separate Account (the "Fund") is advised by Jennison following its Large Cap Growth Equity investment strategy. It seeks to outperform, over the long term, both the Russell 1000 Growth and S&P 500 Indexes and to be the best-performing manager among its peers, with a consistent risk profile.

There is no assurance the objectives will be met.

Investments in large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential.

Fund Fees Reflected in Performance. The Separate Account was established 10/17/2004. Currently all performance results are net of the highest management fee for this Fund of 0.95%. Actual Fund performance is also net of other Fund operating expenses of 0.012% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3

2017	35.49%	30.21%

For more information, go to www.prudential.com. All Plan Sponsors (or authorized representatives of Plan Sponsors) participating in the commingled accounts are generally provided with uniform written reports regarding these products. To the extent a Plan Sponsor requests additional information or perspective from the portfolio manager, we will make such information available to any Plan Sponsor who makes a similar request.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

3-5 Year EPS Growth (%) Calculated by taking the mean of each security's estimated earnings per share (EPS) long term growth rate. The EPS long term growth rate for each security is determined by taking the mean of all of the brokers estimates for EPS long term growth per security.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Weighted Median Market Cap (\$Bil) Calculated by ranking all stocks in a portfolio in ascending order based on total market capitalization. Using the stock's weight in a portfolio, the weighted

Description / Objective
 The Separate Account (the "Fund") is advised by Integrity Asset Management, an investment franchise of Victory Capital Management Inc., effective 6/2005. The Fund is managed pursuant to their mid-cap value investment strategy, investing primarily in the common stock of U.S. mid-capitalization companies. It seeks capital appreciation and to outperform the Russell Midcap Value Index by maintaining a diversified portfolio of mid-capitalization stocks that are currently undervalued, yet poised to outperform.
 There is no assurance the objectives will be met.
Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

Morningstar Volatility Rank As of 12/31/2021

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.

Morningstar® Style Box™ As of 11/30/2021

Domestic equity funds are placed in a category based on the style and size of the stocks they typically own. The style and size parameters are based on the divisions used in the investment style box: Value, Blend, or Growth style and Small, Medium, or Large geometric average market capitalization.

Description / Objective

The investment seeks to provide investment results that correspond to the total return of stocks of mid-capitalization United States companies. The fund invests normally at least 80% of its assets in securities included in the Russell Midcap® Index. It lends securities to earn income.

There is no assurance the objectives will be met.

Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

Finders Fee	No	12b-1 Fee	0%
Sub-accounting fee (\$ per participant)	--	Sub-accounting fee %	0%
Other Service fee (\$ per participant)	--	Other Service fee %	0%

Fees if applicable to this fund, compensate Prudential Retirement for selling the fund's shares and servicing your retirement plan. The fund's expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other share classes of this fund may have a lower expense ratio, but your plan's investment options do not include such shares to compensate us for distribution and plan servicing.

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Open End Mutual Funds, Closed End Mutual Funds, or Variable Annuity Underlying Funds)

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a funds' monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of

Annual Performance		
	Fund	Primary Index
2021	22.56%	22.58%
2020	17.11%	17.10%
2019	30.51%	30.54%
2018	-9.05%	-9.06%
2017	18.47%	18.52%

funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus, and if available the summary prospectus, contain complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus and if available, a summary prospectus that contain this and other information about the mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.

Market Timing: Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

12b-1 Fee An annual marketing or distribution fee on a mutual fund. The 12b-1 fee is considered an operational expense and, as such, is included in a fund's expense ratio. It is generally between 0.25-1% (the maximum allowed) of a fund's net assets.

3-Year Earnings Growth Rate (%) A measure of how a stock's earnings per share (EPS) has grown over the last three years. Morningstar uses EPS from continuing operations to calculate this growth rate. For portfolios, this data point is the share-weighted collective earnings growth for all stocks in the current portfolio. The historical earnings growth rate can tell investors how quickly a company's profits are growing.

Finders Fee A commission paid to an entity who served as the facilitator of a transaction.

Gross Expense Ratio The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Other Service fee % Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Other Service fee (\$ per participant) Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions. The index shown, if applicable, in the Characteristics chart refers to the primary index.

Sub-accounting fee % Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Sub-accounting fee (\$ per participant) Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Weighted Geometric Market Cap (\$Bil) Calculated by raising the market capitalization of each stock to a power equal to that stock's weight in the portfolio. The resulting numbers multiplied together produce the geometric mean of the market caps of the stocks in the portfolio.

Mid Cap Growth / Artisan Partners Fund

A Manager of Managers Institutional Sub-Advised Separate Account

Second Quarter 2019 Fund Fact Sheet

Key Facts	
Investment Advisor	Artisan Partners
Asset Class	Mid Cap - Growth
Primary Index	Russell MidCap Growth Index
Net Assets	\$735.0 Million
Inception Date	09/29/2000
Net Expense Ratio	0.86%
Morningstar Category	Mid-Cap Growth
Morningstar Overall Rating™	★★★★
Overall # of Funds in Morningstar Category	539
Portfolio Manager(s)	Matthew H. Kamm CFA; Jason L. White CFA; Andrew C. Stephens; James D. Hamel CFA

Description / Objective
This Separate Account (the "Fund"), is advised by Artisan Partners Limited Partnership and invests primarily in the common stocks of medium-sized companies. It seeks to achieve maximum long-term capital growth in excess of the Russell Midcap Growth and Russell Midcap Indexes, while managing portfolio risk.

There is no assurance the objectives will be met.

Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

Overall Morningstar Rating as of quarter ending 6/30/2019. The Morningstar Rating shown is for this expense ratio only and assumes no contract charges are imposed. Other expense ratios may have different performance characteristics. ©2019 Morningstar, Inc. All Rights Reserved. Additional Morningstar information is available in the User Guide.

Morningstar Volatility Rank As of 06/30/2019

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.

Investment Style Box As of 06/30/2019

The Fund's location within the Investment Style box gives a graphical representation of the Fund's investment process. The strategies are categorized by Prudential utilizing

- holdings-based and returns-based analysis as well as manager interviews regarding investment process.
- The vertical axis represents the Fund's market capitalization relative to appropriate style benchmark indices.
- The horizontal axis represents the Fund's investment style expressed on a value-to-growth scale, relative to appropriate style benchmark indices.

Fund Fees Reflected in Performance. The Separate Account was established 9/29/2000. Currently all performance results are net of the management fee for this Fund of 0.85% the remainder of the expense ratio are fees for record keeping and other Fund operating expenses. Actual Fund performance is also net of other Fund operating expenses of 0.01% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0.00% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a

Annual Performance		
	Fund	Primary Index
2018	-3.10%	-4.75%
2017	21.01%	25.27%
2016	-0.67%	7.33%
2015	2.49%	-0.20%
2014	6.03%	11.90%

loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For more information, go to www.prudential.com. All Plan Sponsors (or authorized representatives of Plan Sponsors) participating in the commingled accounts are generally provided with uniform written reports regarding these products. To the extent a Plan Sponsor requests additional information or perspective from the portfolio manager, we will make such information available to any Plan Sponsor who makes a similar request.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Separate Account or Custom Plan Investment Options" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

Description / Objective

This Separate Account (the "Fund") is advised by Silvercrest Asset Management Group (the Manager). The Manager employs a quality value approach to investing. Utilizing a philosophy of careful risk management, preservation of capital and a disciplined approach to valuation, the Manager invests in quality companies purchased at a discount to intrinsic value. There is no assurance the objectives will be met.

Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

2017	14.85%	14.65%

Market Timing: Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions. The index shown, if applicable, in the Characteristics chart refers to the primary index.

monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results. **Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus, and if available the summary prospectus, contain complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus and if available, a summary prospectus that contain this and other information about the mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.**

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

12b-1 Fee An annual marketing or distribution fee on a mutual fund. The 12b-1 fee is considered an operational expense and, as such, is included in a fund's expense ratio. It is generally between 0.25-1% (the maximum allowed) of a fund's net assets.

3-Year Earnings Growth Rate (%) A measure of how a stock's earnings per share (EPS) has grown over the last three years. Morningstar uses EPS from continuing operations to calculate this growth rate. For portfolios, this data point is the share-weighted collective earnings growth for all stocks in the current portfolio. The historical earnings growth rate can tell investors how quickly a company's profits are growing.

Finders Fee A commission paid to an entity who served as the facilitator of a transaction.

Gross Expense Ratio The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Other Service fee % Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Other Service fee (\$ per participant) Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors

expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Sub-accounting fee % Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Sub-accounting fee (\$ per participant) Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Weighted Geometric Market Cap (\$Bil) Calculated by raising the market capitalization of each stock to a power equal to that stock's weight in the portfolio. The resulting numbers multiplied together produce the geometric mean of the market caps of the stocks in the portfolio.

Description / Objective
 The Separate Account (the "Fund") is advised by Invesco Advisers, Inc., and is managed by the investment manager in a manner substantially similar to the Invesco Small Cap Growth Fund. It seeks long-term growth of capital.
 There is no assurance the objectives will be met.
Small and mid-sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

Fund Fees Reflected in Performance. The Separate Account was established 12/30/2001. Currently all performance results are net of the highest management fee for this Fund of 1.21%. Actual Fund performance is also net of other Fund operating expenses of 0.015% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics.

Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

For more information, go to www.prudential.com. All Plan Sponsors (or authorized representatives of Plan Sponsors) participating in the commingled accounts are generally provided with uniform written reports regarding these products. To the extent a Plan Sponsor requests additional information or perspective from the portfolio manager, we will make such information available to any Plan Sponsor who makes a similar request.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

3-5 Year EPS Growth (%) Calculated by taking the mean of each security's estimated earnings per share (EPS) long term growth rate. The EPS long term growth rate for each security is determined by taking the mean of all of the brokers estimates for EPS long term growth per security.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower

P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Weighted Median Market Cap (\$Bil) Calculated by ranking all stocks in a portfolio in ascending order based on total market capitalization. Using the stock's weight in a portfolio, the weighted median value is the value belonging to the company straddling the 50% barrier.

International Value I Fund (managed by Causeway Capital)

A Manager of Managers Institutional Sub-Advised Separate Account

Fourth Quarter 2021 Fund Fact Sheet

Key Facts		Description / Objective
Investment Advisor	Causeway Capital Management LLC	<p>The Separate Account (the "Fund") is advised by Causeway Capital Management, effective 9/15 /2021, following its Causeway International Opportunities investment strategy. It seeks to provide long-term capital growth by investing primarily in equity securities of companies outside the U.S., including emerging markets.</p> <p><i>ACCOUNT NOTE: Effective September 15, 2021, Causeway Capital Management replaced Templeton Global Advisors LTD as manager of the Fund. The fund name changed from SA/Templeton Foreign Strategy to International Value I Fund (managed by Causeway Capital). There is no assurance the objectives will be met.</i></p> <p><i>Investments in large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential.</i></p> <p><i>Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.</i></p>

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

Fund Fees Reflected in Performance. The Separate Account was established 4/1/1996. Currently all performance results are net of the highest management fee for this Fund of 1.04%. Actual Fund performance is also net of other Fund operating expenses of 0.119% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account

and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

3-5 Year EPS Growth (%) Calculated by taking the mean of each security's estimated earnings per share (EPS) long term growth rate. The EPS long term growth rate for each security is determined by taking the mean of all of the brokers estimates for EPS long term growth per security.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Other Service fee (\$ per participant)	--	Other Service fee %	0%

Market Timing: Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Please refer to the prospectus, if available for the investment, for information on these potential restrictions and any applicable redemption fees. Otherwise, please contact your Prudential Representative.

Fees if applicable to this fund, compensate Prudential Retirement for selling the fund's shares and servicing your retirement plan. The fund's expense ratio includes these fees. Other investment options may generate more or less revenue than the fees associated with this fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other share classes of this fund may have a lower expense ratio, but your plan's investment options do not include such shares to compensate us for distribution and plan servicing.

Performance displayed for periods beginning earlier than the "Inception Date" is based on the historical returns of the oldest share class of the fund, adjusted to reflect the fees and expenses of this share class. "Since Inception" performance when shown is based on the actual performance of this share class.

The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please call 1-877-778-2100. These performance results represent the change in net asset value of an investment over a stated period, assuming the reinvestment of dividends and capital gain distributions. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions. The index shown, if applicable, in the Characteristics chart refers to the primary index.

Morningstar Rating™ (Open End Mutual Funds, Closed End Mutual Funds, or Variable Annuity Underlying Funds)

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a funds' monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results. **Investors should consider the fund's investment objectives, risks, charges and expenses before investing. The prospectus, and if available the summary prospectus, contain complete information about the investment options available through your plan. Please call 1-877-778-2100 for a free prospectus and if available, a summary prospectus that contain this and other information about the mutual funds. You should read the prospectus and the summary prospectus, if available, carefully before investing. It is possible to lose money when investing in securities.**

Securities products and services are offered through Prudential Investment Management Services LLC (PIMS), Newark, NJ, a Prudential Financial company.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this

material.

12b-1 Fee An annual marketing or distribution fee on a mutual fund. The 12b-1 fee is considered an operational expense and, as such, is included in a fund's expense ratio. It is generally between 0.25-1% (the maximum allowed) of a fund's net assets.

3-Year Earnings Growth Rate (%) A measure of how a stock's earnings per share (EPS) has grown over the last three years. Morningstar uses EPS from continuing operations to calculate this growth rate. For portfolios, this data point is the share-weighted collective earnings growth for all stocks in the current portfolio. The historical earnings growth rate can tell investors how quickly a company's profits are growing.

Finders Fee A commission paid to an entity who served as the facilitator of a transaction.

Gross Expense Ratio The Total Gross Expense Ratio represents the percentage of fund assets paid for operating expenses and management fees. It typically includes the following types of fees: accounting, administrator, advisor, auditor, board of directors, custodial, distribution (12b-1), legal, organizational, professional, registration, shareholder reporting, sub-advisor, and transfer agency. The expense ratio does not reflect the fund's brokerage costs, fee waivers, or investor sales charges. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Other Service fee % Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Other Service fee (\$ per participant) Additional fees paid by the fund company to the entity servicing investors within their fund(s).

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Sub-accounting fee % Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Sub-accounting fee (\$ per participant) Encompasses sub-transfer agent, administrative, sub-accounting, and other shareholder servicing fees. These fees are associated with mutual funds or their service providers entering into arrangements with financial intermediaries to compensate them for providing typical transfer agent services for fund investors whose shares are held in an omnibus account, and may offer other services to shareholders.

Weighted Geometric Market Cap (\$Bil) Calculated by raising the market capitalization of each stock to a power equal to that stock's weight in the portfolio. The resulting numbers multiplied together produce the geometric mean of the market caps of the stocks in the portfolio.

Morningstar Volatility Rank As of 12/31/2021

In the past, this investment has shown a relatively moderate range of price fluctuations relative to other investments. This investment may experience larger or smaller price declines or price increases depending on market conditions. Some of this risk may be offset by owning other investments with different portfolio make-ups or investment strategies.

Regional allocations are ranked as a percentage of net assets and subject to change without notice

Description / Objective

The Separate Account (the "Fund") is advised by Artisan Partners Limited Partnership following their Non-U.S. Growth Investment strategy. The objective is to seek maximum long-term capital growth.

There is no assurance the objectives will be met.

Investments in large cap funds are subject to market fluctuations and may lose value. The investment risks associated with these funds may be impacted by a variety of factors, including investment style, objective, holdings, and focus in particular industries. On average, investments in large cap funds may be considered more conservative than investments in small and mid-cap funds, potentially posing less overall volatility in exchange for less aggressive growth potential.

Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.

Fund Fees Reflected in Performance. The Separate Account was established 2/26/2001. Currently all performance results are net of the highest management fee for this Fund of 1.00%. Actual Fund performance is also net of other Fund operating expenses of 0.036% for the prior calendar year. Such Fund operating expenses may reflect the benefit of a commission recapture program. Fee waivers of 0% are in place for this Fund. Actual performance shown reflects the imposition of the foregoing expenses and the benefit of any fee waivers and commission recaptures.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Fund and other plan investment options. The performance quoted represents past performance. The investment value and return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. Actual performance may be affected by the manager not being able to invest directly in a country prior to satisfaction of that country's legal requirements. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

Morningstar Rating™ (Group Annuity- Variable Annuity Subaccounts) The Morningstar Rating™ is provided for those group variable annuities with at least a three-year history. Ratings are based on the group variable annuity's Morningstar Risk-Adjusted Return measure which accounts for variation in monthly performance, placing more emphasis on downward variations and rewarding consistent performance. Morningstar compares each group variable annuity's risk-adjusted return to the open-end mutual fund rating breakpoints for that category. The group

For more information, go to www.prudential.com. All Plan Sponsors (or authorized representatives of Plan Sponsors) participating in the commingled accounts are generally provided with uniform written reports regarding these products. To the extent a Plan Sponsor requests additional information or perspective from the portfolio manager, we will make such information available to any Plan Sponsor who makes a similar request.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

variable annuity Morningstar Rating does not affect the retail mutual fund data published by Morningstar. Consistent with the open-end mutual fund ratings, the top 10% of group variable annuities in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for each group variable annuity is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

Possibility of Contract Charges. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. The Fund fees and contract charges compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Fund. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other plans investing in the Fund may have lower fees, but these are not available to your plan in order to compensate us for distribution and plan servicing.

The Separate Account. Your retirement plan purchases units of a Separate Account established and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. For tax purposes, PRIAC owns the assets in the Separate Account and receives any dividends-received deduction. As defined by ERISA Section 3(38), PRIAC is the "investment manager" of the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund. The investment guidelines for this Separate Account prohibit leverage.

For federal tax purposes, PRIAC/PICA owns the assets and the income in the separate account and may derive certain corporate income tax benefits associated with the investment of separate account assets. Under current tax law, such benefits may include but not be limited to foreign tax credits and the corporate dividends received deduction, which in either case PRIAC/PICA is the only taxpayer eligible to claim such tax benefits.

Data presented is as of the period specified for this report, unless otherwise specified within a table heading. Data and expense ratios presented are the most current made available at the time of production. For mutual funds, the fund company may have more recent data available on its website. Price corrections that impact performance data may occur after production of this material.

3-5 Year EPS Growth (%) Calculated by taking the mean of each security's estimated earnings per share (EPS) long term growth rate. The EPS long term growth rate for each security is determined by taking the mean of all of the brokers estimates for EPS long term growth per security.

Net Assets Balance data presented is the most current data available at the time of receipt, however some information may be presented on a lag. The data is deemed reliable but the accuracy cannot be guaranteed. All balances are unaudited.

Net Expense Ratio The Total Net Expense Ratio represents fee charged against fund assets after adjustment for fee waivers if applicable. The Net Expense Ratio will equal the Gross Expense Ratio when no fee waivers are in place. Expense data is typically quoted with two decimal places; however, three decimal places will be displayed when values are available.

Portfolio Allocation The pie chart illustrates how investment holdings breakdown into primary investment types.

Portfolio Manager The name of the person(s) who determines which stocks, bonds and cash equivalents belong in the investment portfolio.

Price/Book Ratio Calculated as a weighted average of the price/book ratios of all stocks in the portfolio. This ratio is used to compare a stock's market value to its book value. It is calculated by dividing the current closing price of the stock by the latest quarter's book value per share. A lower P/B ratio could mean that the stock is undervalued. However, it could also mean that something is fundamentally wrong with the company. As with most ratios, be aware that this varies by industry.

Price/Earnings Ratio (Forward) The price of a stock divided by next year's earnings per share estimate. P/E multiples enable investors to compare the relative value of stocks within a portfolio; they show how much an investor must pay for a company's earning power. A lower portfolio P/E ratio indicates that the stocks in a portfolio are not highly-valued relative to the market. Growth-oriented investments tend to have higher P/E ratios than value-oriented investments as investors expect higher earnings growth from the underlying companies and are therefore willing to pay a premium price.

Morningstar Volatility Rank As of 09/30/2019

In the past, this investment has shown a relatively small range of price fluctuations relative to other investments. Based on this measure, currently more than two thirds of all investments have shown higher levels of risk. Consequently, this investment may appeal to investors looking for a conservative investment strategy.

Description / Objective
The Separate Account (the "Fund") invests wholly in the Class Z share class of the Prudential Real Assets Fund ("Mutual Fund"). The investment seeks long-term real return. The Mutual Fund invests primarily in real assets that may perform well in periods of high inflation. Real return is the rate of return after adjusting for inflation. It invests in real assets through its investments within the following asset classes: commodities; domestic and international real estate; utilities/infrastructure; natural resources; master limited partnerships (MLPs); fixed income instruments; and gold/defensive. The fund is non-diversified. Portfolio level data is of the underlying mutual fund.

There is no assurance the objectives will be met.

Sector funds are subject to risks within their specific sectors because they concentrate their investments in securities of companies within certain industries. Therefore, the price of these securities can be volatile.

The real estate industry is greatly affected by economic downturns that may persist as well as changes in property values, interest rates, taxes, environmental issues and regulatory developments.

Fund Fees Reflected in Performance. The Separate Account was established 12/3/2012. Currently all performance results are net of the total expense ratio for this Fund of 0.92%.

Possibility of Contract Charges; Other Fees. Your retirement plan may have agreed to contract charges. If so, these would reduce the performance (and possibly the Morningstar ratings) shown above. Any contract charges are included in the expense ratio shown in your statement and in the performance shown in your statement. Fees that Mutual Fund affiliates transmit to Prudential include a 12b-1 fee of 0.00% and an annual sub-transfer agency fee of 0.25%. Prudential may also receive marketing support fees. These fees compensate us for the distribution and servicing associated with your plan. Other plan investment options may generate more or less revenue for us than the fees associated with this Separate Account. If the aggregate revenue from your plan exceeds our associated costs, we earn a profit. Otherwise, we incur a loss. Other Mutual Fund share classes may have a lower expense ratio, but are not included as a plan investment option in order to compensate us for distribution and plan servicing.

Performance Risks. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of this Separate Account and other plan investment options. The performance quoted represents past performance. The investment value and

return will fluctuate so that an investment, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month end, please call 1-877-778-2100. The performance results do not reflect the deduction of the sales charge that may apply if Mutual Fund shares were purchased outside of the Separate Account. Such sales charges would lower performance. It is possible to lose money investing in securities. Past performance is not indicative of future performance and short periods of performance may be particularly unrepresentative of long-term performance.

The Separate Account. Your retirement plan purchases units of a Separate Account established on 12/3/2012 and made available as an investment option under group variable annuity contracts issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"), Hartford CT. The Separate Account holds the investment securities, and associated voting rights belong to the Separate Account. Pursuant to CFTC Rule 4.5, PRIAC has claimed an exclusion from registration as a commodity pool operator with respect to the Fund.

Miscellaneous. Frequent exchanging of investment options may harm long-term investors. Policies may be in effect at the plan or the investment level to detect and deter exchanges that may be abusive. Such policies may require us to modify, restrict, suspend or terminate purchase or exchange privileges and impose redemption fees. Indices are unmanaged and cannot be invested in directly. See User Guide for index definitions and refer to the section entitled "Description of PRIAC Separate Accounts" for a description of PRIAC's role related to the type of fund described in this Fact Sheet. The index shown, if applicable, in the Characteristics chart refers to the Primary Index.

Prudential Retirement's Role. This fund is not part of Prudential Retirement's Manager of Managers Program and Prudential Retirement does not assume any responsibility for the plan's decision to invest in the funds, to monitor their performance or to provide information regarding the funds. Each of those is the sole responsibility of the plan. To the extent Prudential Retirement provides such information, it makes no warranty as to the accuracy of such information and makes no undertaking to continue to provide such information unless Prudential Retirement agrees to continue to provide such information in writing.

PRUDENTIAL INCOMEFLEX TARGET

Summary Important Considerations

Prudential IncomeFlex Target[®], offered through your retirement plan, is specifically designed to help plan participants secure reliable retirement income they won't outlive.

This summary is intended to serve as an introductory explanation of the benefits and features of IncomeFlex Target. Before investing, please read the more complete explanation of this product, as well as definitions for the terms highlighted in bold, in the Prudential IncomeFlex Target Important Considerations. You can obtain this document by contacting your recordkeeper directly using the contact information on the back page of this document.

ACCUMULATION PHASE

Typically, your income during retirement will depend on how much you've saved by the time you retire. But market downturns as you approach and enter retirement may take your retirement savings—and your retirement dreams—down with them. That's why IncomeFlex Target was designed to let you keep investing in the market, while reducing the risk that losses may impact your income.

WHAT IS AN INCOMEFLEX TARGET FUND?

An **IncomeFlex Target Fund** is a diversified, professionally managed fund that uses the fundamentals of asset allocation to create an asset mix best suited for individuals approaching and in retirement.

Your retirement plan may offer one IncomeFlex Target Fund, or it may offer more than one. If your retirement plan does offer more than one IncomeFlex Target Fund, note that you will have one single set of **IncomeFlex Target Guarantees** regardless of the number of **IncomeFlex Target Funds** in which you choose to invest.

IncomeFlex Target Funds include a feature that sets a guaranteed floor or "**Income Base**" for calculating your lifetime income amount.

Once we begin tracking the IncomeFlex Target Guarantees, as described in the "Additional Information" section of this document, a Guarantee Fee is assessed. This fee is in addition to the standard investment management and recordkeeping fees. For specific details, please refer to the "Fees" section of this document.

For a detailed description of an IncomeFlex Target Fund, please refer to the current **Fund Fact Sheet** (generally available online or by calling the number listed on the last page of this document).

INVESTING IN INCOMEFLEX TARGET: CONTRIBUTIONS, TRANSFERS, AND ROLLOVERS

Investing in an IncomeFlex Target Fund is similar to investing in other funds offered in your retirement plan. All you need to do is transfer some or all of your current balance and/or direct future **Contributions** to the IncomeFlex Target Fund. If your retirement plan permits, you may also roll over balances from previous employers' retirement plans.

Your Market Value (MV)

Your **Market Value** is the monetary value of an IncomeFlex Target Fund. Similar to other funds offered through your retirement plan, the Market Value will rise and fall based on market performance. This value increases dollar-for-dollar every time you add money to an IncomeFlex Target Fund. Conversely, it is reduced dollar-for-dollar every time you remove money from an IncomeFlex Target Fund. **This amount is not guaranteed and may lose value at any time.**

If you decide to remove all of your money from an IncomeFlex Target Fund, you will receive the Market Value as of the effective date of your request. This will bring the Market Value of your IncomeFlex Target Fund to zero (\$0) and, unless you are invested in another IncomeFlex Target Fund, all IncomeFlex Target Guarantees will be cancelled.

Your Income Base

Your Income Base is guaranteed and is used solely to determine your **Lifetime Annual Withdrawal Amount** once you begin taking withdrawals from IncomeFlex Target. It does not represent an account balance and cannot be withdrawn.

Impact of Contributions and Withdrawals

Every **Contribution** you make into an IncomeFlex Target Fund increases your Income Base dollar-for-dollar. Every withdrawal or transfer out of an IncomeFlex Target Fund reduces your Income Base proportionately.

Note: To maintain the IncomeFlex Target Guarantees, you must invest in one or more of the IncomeFlex Target Funds. Like all variable investments, these funds may lose value. Guarantees are based on the claims-paying ability of **Prudential Retirement Insurance and Annuity Company** (Hartford, CT) and are subject to certain limitations, terms, and conditions. Withdrawals or transfers out of IncomeFlex Target during the Accumulation Phase proportionately reduce guaranteed values and may even eliminate them. During the Withdrawal Phase, withdrawals in excess of the Lifetime Annual Withdrawal Amount will reduce future guaranteed withdrawals proportionately and may even eliminate them.

YOUR DECISION TO LOCK-IN

You can choose when and how you want to establish or “**Lock-In**” your guaranteed lifetime income from IncomeFlex Target. We use your Income Base and **Guaranteed Withdrawal Percentage** to set your **Lifetime Annual Withdrawal Amount**.

Your Guaranteed Withdrawal Percentage is based on your age when you Lock-In and whether you elect to guarantee benefits for only you, or for both you and your spouse or civil union partner. Keep in mind that if you elect the **Spousal Benefit** and your spouse or civil union partner is younger than you are, then your spouse’s or civil union partner’s age will be used to determine this percentage. The specific ages and percentages are:

Age at Lock-In	Benefits for You (Single Benefits)	Benefits for You and Your Spouse or Civil Union Partner (Spousal Benefit)
55–64	4.25%	3.75%
65–69	5.00%	4.50%
70+	5.75%	5.25%

A **Withdrawal Period** is one year starting *on* your birthday and ending the day *before* your next birthday.

Once your Lifetime Annual Withdrawal Amount is determined, we guarantee that you can withdraw this amount each Withdrawal Period for the rest of your life. If market performance or your Lifetime Annual Withdrawals reduce the Market Value to zero (\$0), we will continue to fund your Lifetime Annual Withdrawal Amount from our own assets for as long as you live (and your spouse or civil union partner lives, if applicable).

Certain actions you or your retirement plan take could reduce or eliminate this amount.

IncomeFlex Target offers a Spousal Benefit that lets you give your spouse or civil union partner the option of receiving your Lifetime Annual Withdrawal Amount for the rest of his or her life, should he or she outlive you. You must choose whether to elect the Spousal Benefit when you Lock-In. **This decision is irrevocable and cannot be changed once you have Locked-In.**

WITHDRAWAL PHASE

The Lifetime Annual Withdrawal Amount is the grand total you can take each Withdrawal Period without reducing future guarantees. You can take this grand total all at once or in as many increments as you like, subject to your retirement plan’s rules.

You can increase your Lifetime Annual Withdrawal Amount during the Withdrawal Phase in two ways: positive investment performance and additional Contributions. You will need to contact your recordkeeper directly to change any **Systematic Withdrawal** amount following an increase to your Lifetime Annual Withdrawal Amount.

DECREASING YOUR LIFETIME ANNUAL WITHDRAWAL AMOUNT—EXCESS WITHDRAWALS

Withdrawing more than your Lifetime Annual Withdrawal Amount from IncomeFlex Target Funds within a given Withdrawal Period will lower your Lifetime Annual Withdrawal Amount in subsequent Withdrawal Periods. We call these **Excess Withdrawals**. **If you bring the Market Value of all of your IncomeFlex Target Funds to zero (\$0) by taking an Excess Withdrawal, your current IncomeFlex Target Guarantees will expire and will no longer provide a Lifetime Annual Withdrawal Amount.**

You will need to contact your recordkeeper directly to change any Systematic Withdrawal amount following a decrease to your Lifetime Annual Withdrawal Amount. **Failure to adjust the Systematic Withdrawal arrangement is likely to cause you to take Excess Withdrawals, which can reduce and may completely eliminate your Lifetime Annual Withdrawal Amount.**

REQUIRED MINIMUM DISTRIBUTIONS

You may be required to withdraw more than your Lifetime Annual Withdrawal Amount to comply with IRS rules. Please see the Prudential IncomeFlex Target Important Considerations for more information on how this may affect your Lifetime Annual Withdrawal Amount.

GUARANTEED PAYOUT PHASE

We refer to the period when we continue making Lifetime Annual Withdrawal Amount payments to you after your Market Value falls to zero (\$0) as the **Guaranteed Payout Phase** of the IncomeFlex Target Guarantees. We will directly send your Lifetime Annual Withdrawal Amount to your retirement plan account and it will be invested in the fund designated by you or your retirement plan to receive such amounts.

GENERAL INFORMATION

LEAVING YOUR RETIREMENT PLAN—TRANSFERRING YOUR INCOME FLEX TARGET GUARANTEES

If you choose to leave your retirement plan, you may be able to transfer or roll over your IncomeFlex Target Guarantees into a variable annuity contract, which is registered with the Securities and Exchange Commission, available through Prudential Retirement[®]. **This contract may have substantially different fees, investments, and provisions affecting the guarantees.**

You should read the materials concerning such contract carefully, including its prospectus, and consider the benefits and differences between it and IncomeFlex Target as offered through your retirement plan.

If you roll any portion of your IncomeFlex Target Market Value into anything other than a specific Prudential-issued variable annuity, all IncomeFlex Target Guarantees associated with that portion will immediately cease.

If you have an IncomeFlex Target benefit in more than one retirement plan, we may limit your ability to combine IncomeFlex Target Guarantees associated with those multiple plans under an IRA or Roth IRA.

INCOME FLEX TARGET—OPERATING WITHIN YOUR RETIREMENT PLAN

Subject to Plan Rules

Participation in IncomeFlex Target is a feature of your retirement plan, and is subject to the rules of your retirement plan. If your plan's rules are more restrictive than IncomeFlex Target's provisions, your retirement plan's rules will apply. Refer to your retirement plan document and other materials for more information.

Plan Actions—Fund Elimination

Your retirement plan generally can change investment options—including IncomeFlex Target Funds—at any time. This could include closing a fund to new Contributions or even eliminating it entirely. If this occurs, and another IncomeFlex Target Fund is available under your plan, you can transfer into the other IncomeFlex Target Fund(s) and your existing guarantees will continue. However, **if no other IncomeFlex Target Fund is available**, your IncomeFlex Target Guarantees will end and the Market Value of your IncomeFlex Target Fund will move as directed by you or your retirement plan.

Our Action—Fund Closing

We reserve the right to stop accepting Contributions into an IncomeFlex Target Fund, and to change or eliminate the eligibility of funds for our guarantees. If we stop accepting Contributions to an IncomeFlex Target Fund, and the Fund remains an eligible investment, any existing money will continue to receive guarantees.

ADDITIONAL INFORMATION

As soon as you invest in an **IncomeFlex Target Fund**, we begin tracking the **IncomeFlex Target Guarantees** and create an **Income Base** for you.

You also can make IncomeFlex Target automatic by using the optional GoalMaker[®] program offered by your retirement plan. GoalMaker is an optional asset allocation tool available through your retirement plan that can periodically rebalance your account and automatically adjust your portfolio as you get closer to retirement. To enroll in GoalMaker, please contact us using the information located below.

Fees

The expenses for the IncomeFlex Target Fund include the **Guarantee Fee** that pays for the IncomeFlex Target Guarantees. This Guarantee Fee is an annual fee of 1.00% and is assessed in addition to the investment management fees and other operating expenses or recordkeeping and administration fees applied to an IncomeFlex Target Fund. We may change the Guarantee Fee in the future, up to a maximum of 1.50%. Please see the IncomeFlex Target Important Considerations for more information on the Guarantee Fee.

FOR FURTHER INFORMATION

If you have questions about IncomeFlex Target, please contact your recordkeeper directly using the contact information below:

Prudential Retirement Service Center

877-PRU-2100 (877-778-2100)

Guarantees are based on the claims-paying ability of the insurance company and are subject to certain limitations, terms, and conditions. Withdrawals or transfers proportionately reduce guaranteed values prior to locking in. After Lock-in withdrawals in excess of the Lifetime Annual Withdrawal Amount will reduce future guaranteed withdrawals proportionately and may even eliminate them.

Prudential IncomeFlex Target Funds are separate accounts established under group variable annuity contracts issued by **Prudential Retirement Insurance and Annuity Company (PRIAC)**, Hartford, CT. PRIAC does not guarantee the investment performance or return on contributions to those separate accounts. You should consider the objectives, risks, charges, and expenses of the Funds and guarantee features before purchasing this product. Like all variable investments, these funds may lose value. Availability and terms may vary by jurisdiction; subject to regulatory approvals.

For this and other information, please access the participant website or call [877-778-2100] for a copy of the Prudential IncomeFlex Target Important Considerations before investing.

Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Contract form #GA-2020-TGWB4-0805 or state variation.

Certain investments available within the GoalMaker models are only available while you are enrolled in GoalMaker. If you cancel GoalMaker, or initiate a transaction that results in GoalMaker cancellation, you will be asked to direct your future allocations to another investment.

Option III must be completed accurately and received by Prudential **before** assets are accepted; otherwise, contributions will be placed in the default investment option selected by your plan. Upon receipt of your completed enrollment form, **all future** contributions will be allocated according to your investment selection. You must contact Prudential to transfer any **existing** funds from the default option.

If you choose GoalMaker and want to automatically, once eligible, allocate a portion of your retirement account to the IncomeFlex funds to help you generate guaranteed retirement income, please check this box.

Investment Allocation
(continued)

(Please fill out Option I, Option II, or Option III. Do not fill out more than one option.)

Option I - Choose GoalMaker with Age Adjustment

By selecting your risk tolerance, and confirming your expected retirement age below, your contributions will be automatically invested in a GoalMaker model portfolio that is based on your risk tolerance and years left until retirement. You also confirm your participation in GoalMaker's age adjustment feature, which adjusts your allocations over time based on your years left until retirement.

In applying particular asset allocation models to your individual situation, you should consider your other assets, income, and investments (e.g., equity in a home, Social Security benefits, individual retirement plan investments, savings accounts, and interests in other qualified and non-qualified plans) in addition to your interests in the plan.

There are other designated investment alternatives that have similar risk and return characteristics available and can be viewed in the "design your own allocation section" of this form. More information on these investment alternatives is available in the fund fact sheets included within this guide.

Select Your Risk Tolerance **Conservative** **Moderate** **Aggressive**

Confirm Your Expected Retirement Age

Expected Retirement Age:

Yes. Please use the default Expected Retirement Age listed above

No. Please use as my expected retirement age.

OR

Option II - Choose GoalMaker without Age Adjustment

I do not want to take advantage of GoalMaker's age adjustment feature. Please invest my contributions according to the model portfolios selected below.

Time Horizon (years until retirement)	GoalMaker Model Portfolio (check one box only)		
	Conservative	Moderate	Aggressive
16 + Years	C04	M04	R04
11 to 15 Years	C03	M03	R03
6 to 10 Years	C02	M02	R02
0 to 5 Years	C01	M01	R01

Social Security Number _____

Option III - Design your own investment allocation

If you would like to design your own asset allocation instead of selecting GoalMaker, designate the percentage of your contribution to be invested in each of the available investment options. (Please use whole percentages. You must be at least 50 years of age to invest in the IncomeFlex funds. The column(s) must total 100%.)

I wish to allocate my contributions to the Plan as follows:

Your Contributions	Your Employer's Contributions	Codes	Investment Options
<input type="text"/> <input type="text"/> <input type="text"/> %	<input type="text"/> <input type="text"/> <input type="text"/> %	XV	Guaranteed Income Fund*

*These investments are included in your plan's GoalMaker portfolios. These investments are subject to change. You will be notified in writing in advance of any such change.

Spousal Consent

I am the spouse of the participant and, I understand that I am entitled to receive 100% of the account upon the participant's death. By signing this consent, I will **not** receive the benefit that would otherwise have been payable to me upon the participant's death. I voluntarily agree to the participant's designation of the beneficiary(ies) indicated above.

X _____ Date _____

Spouse's signature - must be witnessed by a notary public OR authorized plan representative.

Notary Stamp or Seal

Subscribed and sworn before me on the _____ day of _____, the year _____

State of _____, County of _____

My commission expires _____

Signature of _____ notary or _____ authorized plan representative

X _____ Date _____

Your Authorization

Signature X _____ Date _____

Plan Provisions

For Married Participants: Upon your death, any benefit will be payable to your spouse unless the Spousal Consent section of this form is completed and witnessed.

If you die before you begin to receive benefits and the Spousal Consent has not been completed, the plan must automatically pay a spousal death benefit consisting of 100% of your account balance to your surviving spouse (if any) as beneficiary.

Note: Even if your current beneficiary is a trust or estate of which your spouse is a beneficiary, spousal consent is necessary. Without such waiver and consent, the spousal death benefit must be paid directly to your spouse.

Please be careful in completing the form; be sure that your designation is accurate, clear and understandable.

General Provisions

- A The terms of the plan govern the payment of any benefit.
- B Primary beneficiary(ies). If more than one person is named and no percentages are indicated, payment will be made in equal shares to the Primary beneficiary(ies) who is living at the time the benefit first becomes payable. If a percentage is indicated and a Primary beneficiary(ies) is not alive at the time the benefit first becomes payable, the percentage of that beneficiary's designated share will be divided equally among the surviving Primary beneficiary(ies).
- C If there is no Primary beneficiary(ies) living at the time of the participant's death, any benefit that becomes payable will be distributed to the surviving Secondary beneficiary(ies) listed, if applicable.
- D Payment to Secondary beneficiary(ies) will be made according to the rules of succession described under Primary beneficiary(ies) in provision B above. If no designated beneficiary(ies) is alive when payment is otherwise payable, payment will be made in accordance with the plan.
- E If a Trust is named as beneficiary, any payment to the Trust will be made as if the Trustee is acting in such fiduciary capacity until written notice to the contrary is received.

Scranton, PA 18507-1789

Instructions for Choosing Your Beneficiary

Please print using blue or black ink. Please print using blue or black ink. Keep a copy for your records and send the original form to the address above or fax it to 1-866-439-8602.

Examples of Beneficiary Designations

If you feel that none of the examples below fit the type of beneficiary designation you want, please send a detailed description of what you propose to Prudential.

Use the term:

1. **"My Living Children"** if you want all your children (born or adopted of any marriage) living at the time of payment to equally share the benefit. This will also include all such children born or adopted after you completed the form. Do not include the names of your children if you use this term.
2. **"My Living Trust"** if you want to designate your Living Trust. You must also give the name(s) of the Trustee(s), name(s) of the successor Trustee(s) (Trustee and Successor Trustee cannot be the participant), the date of the Trust Agreement and the address if a bank or trust company is the Trustee.
3. **"My Testamentary Trust"** if you want to designate the Trust in your Last Will and Testament. Do not name your Trustee.
4. **"My Estate"** if you want the benefit to be paid to your estate.
5. **"(Name), Per Stirpes"** if you want the payment(s) to be paid up to and including the second generation of descendants. For example, if a beneficiary in such class is not living when a payment is due, such payment will be made in equal shares to any living sons and daughters (born or adopted of any marriage), of such beneficiary. If there are no living sons and daughters of such beneficiary when a payment is due, payment will be made to the estate of the last to die of the participant or such beneficiary. An example of a correct designation would be Jane Doe, Per Stirpes.
